Der Corsar

(THE CORSAIR,)

A Weekly Paper, dedicated to forward political reforms, edited by BERNHARD DOMSCHKE, with Mr. L. WITTIG, as a regular contributor.

"Der Corsar" will adhere to the principles set down in the Madison Platform, of the 15th July, '54, and favors course, opposed to those parties who prefer expediency to reform, and slavery to freedom. And those who take a warm interest in the contest against the reactionary parties and the demagogues, that lead and control them, and who are interested in the d[illegible] in the realization of genuine Republican principles, are invited to subscribe to "Der Corsar."

"Der Corsar" will be published every Saturday, at the price of $2,00 per year, payable in advance every six months. In as much as "Der Corsar" will be widely circulated within the State of Wisconsin and out of it, it is well adapted to advertisements, which will be inserted at the usual rates.

INSURANCE OFFICES

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,

Located at Madison, Wisconsin,

This Company continues to take risks upon Farm Property only, consisting of buildings of all kinds, (belonging to Farmers) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, and your share of the same class, and all will be on an equal footing.

Experience has shown that two-thirds of the three fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY by LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss,* though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

MILWAUKEE MUTUAL

FIRE INSURANCE COMPANY.

Office in Martin's Block, Milwaukee.

Capital over $165,000—in Cash and Premium Notes.

This Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire.

The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company has issued 2500 Policies, and other but three assessments at a rate to the property insured, not exceeding two mills on the dollar. Its business is prized pally confined to this State.

DR. J. B. MARCHISI'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females.

It stands preeminent for its curative powers in all the diseases for which it is recommended usually called

Female Complaints.

Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation, and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the uterus and os uteri. It is worthy of the notice of the Faculty.

JOHN C. ORRICK, M. D.,

Baltimore, Md.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing but a ulcer.

Truly Yours,

WM. LAIRD HAZLETT, M. D.,

July 6th, 1854. New Philadelphia, Ohio.

I must say, from my own experience and personal observations in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregularities of the menstrual organs, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D.,

Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of its beneficial results in all the complaints for which it is offered, that physicians who have used it in their practice, and speak from their own observations.

German Reform Paper.

FROM THE SEVENTH OF OCTOBER, 1854, WILL be published at Milwaukee,

Der Corsar

(THE CORSAIR,)

A Weekly Paper, established to forward political reforms, edited by BERNHARD DOMSCHKE, with Mr. L. WITTIG, as a regular contributor.

"Der Corsar" will adhere to the principles set down in the Madison Platform, of the 13th July, '54, and be of course, opposed to those parties who prefer stagnancy to reform, and slavery to freedom. And those who take a warm interest in the contest against the reactionary parties and the demagogues, that lead and control them, and in the realization of genuine Republican principles, are invited to subscribe to "Der Corsar."

"Der Corsar" will be published every Saturday, at the price of $2,00 per year, payment in advance every six months. In as much as "Der Corsar" will be widely circulated within the State of Wisconsin as well as abroad, it is well adapted to advertisements, which will be inserted at the usual rates.

THE MADISON MUTUAL,

Located at Madison, Wisconsin,

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, but your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected POSITIVELY BY LETTING THEM ALONE.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

FIRE INSURANCE COMPANY.

Office in Martin's Block, Milwaukee.

Capital over $165,000—in Cash and Premium Notes.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2800 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

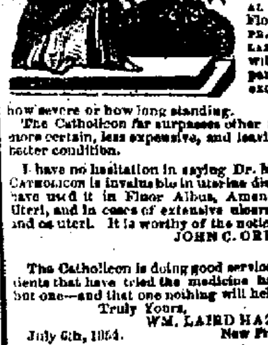
DR. J. B. MARCHISI'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females.



IT STANDS PRE-eminent for its curative powers in all the disease for which it is recommended usually called

Female Complaints.

Of these are PROLAPSUS UTERI, or Falling of the Womb; FLUOR ALBUS, or Whites;—CHRONIC INFLAMATION, AND ULCERATION OF THE WOMB; INCIDENTAL HEMORRHAGE, or Flooding; PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c, with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

JOHN C. ORRICK, M. D.,
Baltimore, Md.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.

Truly Yours,
WM. LAIRD HAZLETT, M. D.,

July 6th, 1854. New Philadelphia, Ohio.

I must say, from my own experience and personal observation in my practice, it has proved to be the best and safest remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D.,
Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

EDITORIAL CORRESPONDENCE OF THE SENTINEL

Madison, Jan 11

The Senate met this morning, full, Mr Reymert having arrived. On proceeding to elect officers Dr S G Bugh, the Chief Clerk of the last session, was re-elected by the [illegible] Democratic votes, Mr W A [illegible] receiving the 10 Republican votes and those of Mr Roberts and Mr Coles, Independents. W H Gleason, Sergeant at Arms to the Assembly last year, was [illegible] to the same office in Senate, receiving 14 votes, Mr [illegible] adding one to the Democratic strength. Mr W I Dewey is Assistant Clerk and Chas T Wakeley Assistant Sergeant, both worthy and capable men.

Messrs Reymert and Kelsey are the Senate members of the Committee to wait upon the Governor.

Mr Wakely introduced a resolution for a final adjournment on the 6th of March.

The other business was merely formal, and the Senate adjourned to 10 A M to-morrow.

In Assembly Col Atwood, the new Chief Clerk was qualified, and took his seat, with Mr Donaldson late member from Fond du Lac Co, as Assistant. They make a strong team, and business will no doubt go on with despatch and accuracy. I am under many obligations to Mr McHugh, the outgoing officer for courtesies shown at various times during his long service.

Resolutions being in order, on motion of Mr Hopkins one was passed directing the distribution of the Journal of last session, and copies of the Revised Statutes.

Mr [illegible] offered a resolution directing the Chief Clerk to furnish the Postmaster of Madison with a list of members to the end that their postage may be charged to the State. A motion to suspend the rule requiring resolutions to lie over for a day failed, but one to the same purport was carried for this day though not soon enough to bring in the postage resolution.

The chief Clerk was directed to inform the Senate that the Assembly had organized.

Mr McIndoe offered a resolution inviting (by the Speaker) the resident clergy to officiate, one hundred dollars to be paid for their services for the session. Mr Hull moved to strike out all relative to the sum to be paid—*lost*. Mr Bennett moved to strike out all after the word "Resolved." This was opposed [illegible] by a member whose name I did not learn and Mr McIndoe called the ayes and noes upon the motion, and it was lost 27 to 3[illegible]. Mr [illegible] moved a substitute proposing to have the Assembly elect a single chaplain, with a salary of $100 00 which proposition did not meet with favor, and Mr McIndoe's original resolution passed by 51 to 26.

And now Mr Earnest called up his resolution to take care of the postage business, but before anything was said upon it a message came in from the Senate announcing the organization of that body, and Mr Stevens being present was also sworn at this time and Mr Van Nostrand took the opportunity to introduce a joint resolution to adjourn the Legislature finally on the 12th of March.

And now came the postage resolution. Mr Van Nostrand moved its adoption, but Mr Rogan moved to lay it on the table, and it went there 42 to 39, most of the ayes Republicans.

The Speaker announced Messrs Van Nostrand, Hopkins and Hull as the committee to wait upon the Governor and Messrs Earnest, Gray, C[illegible], Pen[illegible] and Bond, as the Committee on Rules.

A motion to adjourn fail[ed] 25 to 40.

Mr McIndoe now fired a [illegible] shot into the camp in form of a resolution to return the stationery furnished. Mr Ebbetts proposed that a writ of replevin be issued at the same time against each member, which proposition was acceptable to the mover of the resolution. A brief discussion followed, eliciting from several members the expression of a determination to have a return of some at least of the abuses long practised here. Mr McIndoe's *stationery* resolution was made *stationary* by laying it upon the table 45 to 33.

Mr Colley introduced a resolution to invite the Judges of the Supreme Court to meet the Senate and Assembly when the Message is delivered.—The House then adjourned to 10 A M to-morrow. We shall probably have the Committees to-morrow.

You have above the brief but sufficiently full record of the doings of the day. We shall probably get the Message to-morrow.

I find that the good effect of the operations of yesterday in the Houses is quite perceptible, the Republicans having learned confidence in each other and in relation to an important matter soon to be upon the *tapis*, their effect is aptly illustrated by the remark said to have been made by a somewhat distinguished and active candidate for a high position. As he walked home last evening, he said "Well! I think it plain enough that Mr —— and myself may as well go *home*." But they will not go home. They will stay and do their best to divide the Republican strength, in which I have strong faith that they will fail. Rumor says now that Gov Doty and his friends are to make a strong effort to give him the regular Democratic nomination. This may possibly be done. But even that will be altogether insufficient to elect him, in all probability, since I see nothing as yet to diminish my confidence in a complete union and harmony among the Republicans, who will be aided by some Democrats who are decidedly Republican in sentiment—and the result will be just right.

You will notice strong indications of a determination to carry out some of the pledges of reform made by members and in their behalf by the press. There is now a growing disinclination to charge the State with their postage. If any method could be devised by which the franking privilege could be confined within its proper and reasonable limits, it would be well to adopt it—Certainly it is *not* reasonable that members should be obliged to pay their postage, a large share of which is upon public business, out of their own pockets, and there is no principle of Republicanism that I know of which requires it.

The Sovereigns meet to night.

The Ohio Democracy — The Sham Democracy of Ohio met in State Convention at Columbus on the 8th instant and renominated Col Medill for Governor, Jas Myers for Lt Governor, Judge [illegible] for Supreme Court Judge, W D Morgan for Auditor and J G Breslin for Treasurer. The "platform" adopted glorifies Gen Jackson, recommends publication of farewell address, endorses the Union of the States, proposes a revision of the tariff of 1846 and commends the efforts of the General Government to make gold and silver the currency of the country, proclaims hostility to internal improvements by the General Government, in favor of cheap lands to the landless, in favor of the compromises of the Constitution—affirms the Baltimore platform of 1852, denounces slavery and the Know Nothings—in favor of a law prohibiting the banks from collecting their dues, also, to prevent the receipt of bank notes for taxes.

The Missing M[illegible] — The Cincinnati *Commercial* of the 5th instant, says:

A young lady, supposed to be Miss Emma Moore, about whose mysterious disappearance from Rochester a few weeks since so much has been said in the newspapers, was taken into custody at a boarding house on Fifth street, near Western Row, yesterday morning, and sent to the House of Refuge. She will be detained until advices can reach here from Rochester, N Y.

U S DISTRICT COURT

JUDGE MILLER PRESIDING

[illegible]

The United States vs Sherman M Booth, *Indicted for Aiding in the Rescue of Joshua Glover, and Resisting United States Officers.*

District Attorney Sharpstein and E C Ryan, Attorneys for the Government. Jas H Paine and Byron Paine, Attorneys for Defendant.

THIRD DAY

Friday January 12

H Boswell, sworn—Was at the square the day of the rescue, time the jail was broken—saw defendant there at that time—heard remarks of defendant on the roof of county offices but could not distinctly hear him, was too far off—heard him make report of committee from Judge Miller, was made—the subject, as near as I remember, was that he was disappointed in that the writ could not be served and that the man would have to lay in jail till Monday—defendant advised the people not to commit violence—after the report of the committee was made the people seemed to be still, but soon after there was a move towards the jail and it was soon broken open.

Cross examined—Was at the meeting in the forenoon and most of the afternoon—didn't see Racine delegation, but understood they had come—Mr Watkins stated in substance that Judge Miller had refused to acknowledge the writ of habeas corpus and that he stated the man was in jail and must remain there till Monday—heard defendant speak against the fugitive slave law, and it was in the same speech when he counselled them not to commit violence—defendant spoke immediately after Mr Watkins—he was in the street and on horseback—saw the negro taken out of the jail—saw him put in the wagon—saw the wagon drive on—didn't know who was in the wagon—don't know where defendant was at that time—don't remember defendant or any one else remarking, that if they felt like the speaker, he knew what they would do—I stood close to the defendant—I heard him speak indignantly against the fugitive slave law—my impression at the time was that Mr Booth spoke very earnestly against violence—he seemed to be certain there was a better way than that, and I thought he wanted to make that impression upon the crowd—when the jail was broken the whole crowd cheered as near as I could judge.

Direct Resumed—The cheering seemed to commence when the attack was made on the jail, and when the negro was brought out, the cheering was more general.

Mason Smith, sworn—Was at the square on day of rescue—heard deft make remarks on horseback, on the East side of the square—among his remarks, he wouldn't advise them to use any violence.

Cross Examined—Among his remarks he said he loathed the fugitive slave law—think he said that first, and said, but he wouldn't counsel violence—didn't hear him say that if they felt like him, he knew what they would do. About 20 minutes after Mr Booth spoke before the jail was broken—saw the wagon driven off but didn't see any person on horseback near it.

Hiram Church, sworn—Saw Deft riding on horseback near U S Hotel on day of rescue, heard what he said—"O ye Friends of Liberty, meet at the Court House at 2 o'clock." Heard some person ask him what they wanted to meet at the Court House for, and he said "come and I will tell you, or come and see." He cried out in a loud voice, he rode by and did not stop, heard nothing said about a rescue.

Cross examined—His horse was on a hand gallop, he was going south, he was crying out, which attracted my attention to what he said when he came up.

Erastus D Baker, sworn—Was in city on 11th March last, saw deft on that day between 8 and 11 in the forenoon heard him speak about the imprisonment of Glover, saw him mount his horse and commence riding.

Simeon Babcock, sworn—Went to the Court House, the day of rescue, saw defendant there, heard some one ask him what "forthwith" meant, Mr Booth replied that its meaning, according to Webster, was as soon as it could be done, but according to Judge Miller, it meant next Monday morning. Soon after that, the jail was broken, some of the people cried out "lets have him out." Mr Booth counselled them to commit no violence.

Cross Examined—Saw the wagon with the negro in it as it went down street, didn't see the defendant on horseback accompanying it, nor again that afternoon.

Direct Resumed—Should judge that the remarks of the defendant could be heard only by those immediately around him. Some of them left to go towards the jail—twas then that Mr Booth counselled against violence.

William Lee, (sworn)—Was at court house square day of rescue, saw deft, heard him make remarks. I was there at the appointment of committee in front of the court house steps, heard the remarks made on the resolutions, did not hear any body counsel violence, did not hear Mr Booth counsel violence. The object of the meeting seemed to be to obtain the man a fair hearing, and to appeal to the laws of the land. Heard defendant speak on his horse, on Jackson Street, he counselled them not to commit violence. Mr Watkins had spoken, and a good deal of feeling was manifested by the crowd at the remarks of Mr Watkins, then Mr Booth spoke and counselled no violence.

Cross examined—Think deft spoke against the fugitive slave law pretty strong, think deft said something like this, that if the crowd all felt like him he knew what they would do. I'm pretty sure such remarks as those were made by the deft. I left soon after, before the jail was broken. I thought the concern was pretty much wound up for the day and I left. Saw deft on foot in the square but at what time cant remember.

Direct resumed—There was more feeling manifested at the close of Mr Watkins remarks than before. After Mr Booth had finished speaking the crowd appeared quiet and I started to go home, thinking it was all quieted.

Harry Clark, sworn—Was present when Glover was taken out of jail, near by—saw him when he came out—didn't see defendant there at the time, nor while the jail was being broken—saw him after that, but not on the ground—I was on horseback, rode ahead of the wagon—I rode to the wagon to corner of Oneida and Jackson streets, then rode behind it to Jefferson street, then passed it between Mason and Wisconsin streets then ahead as far as Butler's stable and held up till it passed—rode beside and behind it to Walker's Point bridge—did not see any thing of defendant—he could not have been near it without my seeing him. Witness stated that he (witness) asked the man in the buggy where he wanted to take the negro—he replied anywhere he wanted to go. He was then put in the buggy—Captain Jennings asked the negro if he would be safe with the man in the buggy—Mr Booth didn't know who the man was in the buggy—defendant said he was sorry, the jail was broken open.

[We understood the witness to state one time, that "Captain Jennings asked the negro if he would be safe with the man in the buggy, and again we understood him to say that Captain Jennings asked Mr Booth, if the negro would be safe with the man in the buggy." But we were unable to condense his evidence to the real intent of his statements as the answers were given both ways.]

Cross Examined—Mr Booth wanted to know if the negro would be safe in the hands of the man, and asked who the man was—had been at court house an hour before the jail was broken perhaps two hours—had no business there except curiosity. I was not there to aid in the escape of the negro. I asked at the bridge what Messenger was going to do with the negro—he said he would take him anywhere he wanted to go, I then went back and told the people in the wagon. Saw the deft when he rode up—didn't hear him say that he was satisfied that Messenger was a safe man, or that he approved of his being put in the buggy—I swear that from the time that the wagon left the Court House till it got to the bridge Mr Booth was not riding by or accompanying it, don't think he could be—it would be impossible for him to have been, and me not have seen, he might have been laying in the bottom of the wagon.

Direct Resumed—From the position of Mr Messenger ahead of the wagon at the bridge Mr Booth had no opportunity of seeing his face—deft asked who it was in the buggy, didn't hear the reply when he was told who it was.

H N Thompson, sworn—I was standing in front of Rubles store when defendant came by on horseback down the street—he said several times, "freemen turn out"—he said the court house bell would soon be ringing, and wanted people to attend—didn't hear him say anything about rescue—he didn't use any such language.

Cross examined—Heard him crying out before he got opposite me and until he got by me, and until he got out of hearing—he might have made different expressions above or below me but not when he was opposite me unless he spoke very low.

E L H Gaar?, sworn—Was at the court house square a few minutes, about 2 o'clock—saw the wagon which the negro was in—got into the wagon of a friend and rode after the wagon till it got to Walker's Point bridge—saw nothing of defendant following the wagon—when we arrived at the bridge defendant was not there—he arrived about two or three minutes afterwards.

Cross examined—Think there was another wagon accompanying it, saw no person on horseback, did not see Edwin Palmer or Clark that I know of, don't know Captain Jennings. Might have known the people in the wagon at the time, but don't remember them now. When the negro arrived at the bridge a number of men came up and shook hands with him, he appeared to recognize them, think they called him Glover. My principal business was to get a sight at the [illegible]. There were two or three buggies at the bridge, saw the negro get out of one wagon and get into another, the one he got into was nearer the bridge than the one he got out of, did not see the defendant pass between the wagons. About five minutes after deft came there the negro was removed from one wagon to the other. Did not hear deft say anything after he got to the bridge.

Defense rested—25 minutes to 12 M

Prosecution called Thomas Christian, sworn—Was in Oakley's employ at the time of the rescue, Joseph Heath came to our stable about 5 P M for a team of Mr Booth's horses. Question—What did he say when he came for that team. Objected to—objection sustained. Witness continued—Mr Heath got no team there.

William R Perry, sworn—Know Herbert Reed, saw him the day of rescue. Question—Did you have any conversation with Mr Reed on the morning of that day? Objected to, and argued at length, and finally overruled by the court.

Captain Jennings recalled by prosecution. Witness expressly denied asking Mr Booth at the bridge whether the negro would be safe in the hands of Mr Messenger, part of the time was within two or three feet of Mr Booth.

By a Juror—I cannot be confounded between Mr Booth and Mr Clark.

Cross Examined—Have no strong prejudice against Mr Booth personally, am pretty positive that I never said I was glad Mr Booth was in prison, or that he ought to be in Waupun, am pretty careful as to what expressions I make use of about any one.

Prosecution rested again.

Defence offered to call two witnesses to rebut Capt Jennings, but was not allowed, the court stating that they had made him their witness by cross examination, and they would not be permitted to contradict by others.

Court here adjourned till 2 P M.

The afternoon and evening were wholly occupied by the Counsel in summing up. Our report of their speeches is crowded out by the Governor's Message.

☞ The New York *Tribune* of Friday, among other contributions for the benefit of the Poor, acknowledges this mite from Wisconsin:

Short and Sweet—"Inclosed is one dollar "for the relief of the poor. I am a little girl twelve years old, and have earned this money by my own labor. H A S Milwaukee."

Editorial Personalities—The New York *Tribune* thus winds up an article upon the dignity of journalism:

Whenever editors raise the standard of mutual respect, whenever they become in fact what they are in theory—a profession, whenever they have a common and current creed of gentlemanly behavior as *editors* no less than as *men*—then will the evils complained of be cured, and society spared the merciless infliction of private wrongs upon its notice. Editors ought to know that the bare fact of their commanding the use of the pen daily, does not entitle them to persecute the public with editorial quarrels. These are incidents of their private business, and ought to be so treated.

Nomination for Congress.

Concord, Jan 8th

The Democrats of the Third district this State have nominated Wm P Wheelan as the successor of Hon Harry Hibbard.

The new member from Nebraska.

Washington Jan 8th.

Mr Giddings, the new member from Nebraska, has announced that he is a firm friend of the Administration and a supporter of the Nebraska bill.

Neither House of Congress is in session, having adjourned over in honor of the celebration of the Battle of New Orleans.

The Charge of the Light Brigade at Balaklava.

[The London literary correspondent of *The Tribune* recently said that Tennyson could not write on the themes of the present war, but the following thrilling lyric which we take from the last *London Examiner* is a splendid refutation of that criticism.—N. Y. *Tribune*.]

Half a league, half a league,
Half a league onward,
All in the valley of Death
Rode the six hundred.

Into the valley of Death
Rode the six hundred,
For up came an order which
Some one had blundered.
Forward the Light Brigade!
Take the guns, Nolan said
Into the valley of Death
Rode the six hundred.

Forward, the Light Brigade!
No man was there dismayed,
Not though the soldier knew
Some one had blundered.
Theirs not to make reply,
Theirs not to reason why,
Theirs but to do and die,
Into the valley of Death
Rode the six hundred.

Cannon to right of them
Cannon to left of them,
Cannon in front of them
Volleyed and thundered.
Stormed at with shot and shell,
Boldly they rode and well,
Into the jaws of Death
Into the mouth of Hell,
Rode the six hundred.

Flashed all their sabres bare
Flashed all at once in air
Sabring the gunners there,
Charging an army while
All the world wondered
Plunged in the battery smoke,
With many a desperate stroke
The Russian line they broke,
Then they rode back but
Not the six hundred.

Cannon to right of them
Cannon to left of them,
Cannon behind them
Volleyed and thundered,
Stormed at with shot and shell,
While horse and hero fell,
Those that had fought so well
Came from the jaws of Death,
Back from the mouth of Hell,
All that was left of them,
Left of six hundred.

When can their glory fade
O the wild charge they made
All the world wondered
Honor the charge they made!
Honor the Light Brigade,
Noble six hundred!

THE MARKETS.

OFFICE DAILY SENTINEL
Milwaukee January 13 1855

RECEIPTS BY M & M RAIL ROAD, Jan 11—3674 bus wheat 70 bbls flour, 36 bbls highwines 31 bales brooms, 616 hogs, lot hides and mdze.

RECEIPTS BY M & W RAILROAD — 1018 bu wheat 33 bbls flour, 105 hogs, 8 bags buckwheat flour, 1 hides.

Good receipts yesterday, market active and prices well sustained. We quote

Wheat—quick, at 1,25@1 30 for Spring, 1 31@1 40 for Winter.

Barley—in demand, at 86@90, Rye at 75@80, and Corn at 45.

Oats—steady, 30@33.

Pork—heavy receipts, and range of market 3 75@3,90.

Weather very mild and river open.

Indiana Money—Bank Notes Inflated — The Cincinnati *Gazette* of the 9th instant says:

The Indiana free banks have been divided into three classes and the notes were selling to day as follows, 1st class, 5 per cent discount, 2 do 12 do 3 do 20@25 do—New York and Virginia Bank, Evansville, Indiana Stock Bank, at Laporte, Prairie City Bank, and all Indianapolis banks were received by some houses from their correspondents at par. The list is so liable to vary that its publication would be calculated to mislead distant readers, as notes saleable to day at 5 discount, might be 25 tomorrow.

The most startling discovery of the age is that by which a bank note or other writing or engraving is copied to such perfection as to defy the best judges. Last week a photographist copied a note of the State Bank of Ohio, and this spurious bill, was presented to and received as genuine by three of the most experienced Bank Tellers in the city, and even after being told that it was not genuine they contended that it was good. Unless this discovery can be overcome confidence in Bank notes will be destroyed.

Cincinnati Market.—Jan. 8.

Flour and Grain —The market was quiet for Flour to day, and the only sales heard of were 150 bbls at $7,75 and 50 do at 7 50. In Grain, 400 bus Barley sold at $1, and 200 do at 1 28.

Provisions—The market was very quiet to day, and the only sales heard of were 300 bbls prime lard, in kegs, at 9½. Mess pork was offered at 11a11,25.

Hogs—The market was heavy and unsettled to day—The only sales heard of were 200 head, dividing on 180 lbs at 4a4,50, and 170 do, averaging 170 lbs, at $4.

[SPECIAL DESPATCHES TO THE SENTINEL]

New York Jan 12

Senator Norris, of New Hampshire, died at Washington last evening of disease of the heart.

F A

[REPORTED FOR THE SENTINEL]

Further Details by the Baltic.

New York, Jan 12

The *Africa* arrived out on the 24th. The *Sarah Sands* had put into Cork, with her sails damaged, and would proceed to Liverpool. The *Arabia* sailed from Marseilles on the 21st, with 1540 French troops for the Crimea.

In regard to the Russian mission to London, of which high expectations have been formed, it was surmised that the envoy was merely the bearer of an autograph letter to the Queen, and that his instructions were merely to watch the course of events. Nothing certain, however was known.

Affairs before Sebastopol were unchanged to the 20th of December. The Russians claim to be doing considerable damage to the approaches of the allies. Nevertheless the French 3d parallel was mounted with cannon. Reinforcements of the allies down to the 18th reach 18,000.

An official despatch in Paris Moniteur from Balaklava says the situation of the allies is excellent. Menschikoff was sick and Gen Osten Sacken was in command, 5 000 Turks had landed at Eupatoria, the destination of Omar Pacha, was kept a profound secret. It is thought they would invest north side of Sebastopol.

The wretched state of the roads from heavy rains, had put a stop to operations between Perekop and Simpheropol. The road was completely impassable and a week had elapsed since a courier had arrived at Odessa from Sebastopol, but at last accounts the weather had improved with heavy frosts.

Admiral Hamelin, writing on the 19th, says the place had kept up a brisk fire. The enemy had made vigorous sorties on our lines and those of the English. As soon as he reached the parapets he was received by a well sustained fire of musketry and repulsed at the point of the bayonet after an obstinate struggle. The skirmish occurred at Inkerman on the 15th.

Omar Pacha left Shumla for Constantinople on the 14th. Turkish troops began to arrive from the Varna on the 18th.

A letter in the Sun says that the defence is to be conducted on a new plan. The costly material will be removed from the bastions on the walls and carried back to the ships. Twenty two ships have been equipped and are now ready for sea. It is probable the garrison have mined the places which they pretend to have left.

The Tromsolin Blatt says also the defence of Sebastopol will be confined to the forts. We have further particulars as to naval sortie before Sebastopol. Two Russian steamers towing six gun boats, run out of the harbor, and after firing on a French steamer were compelled to retire.

Orders had been received at Warsaw to complete the substantial works of the citadel within the first fortnight of January. Marshal Paskiewitch has ordered the enrollment of three packs of flying artillery and the completion of a second grand army of reserve to be concentrated in and around Moscow. Twenty thousand men were engaged in fortifying Kiel, on the Baltic.

France and England have notified the Swedish Government, that all the Russian harbors are to be closed. A Russian ukase is published, which says whoever after a battle shall commit acts of cruelty on the wounded or unresisting, will be punished by death.

Eight English ships were taking soundings off Etchakoff and hence it is surmised the allies will make an attack on Kirgam, preparatory to an attack on Perekop. A levy of 10 men on every 100 is ordered to take place in the eastern half of the Empire to be completed by the 10th of March.

There is a report that Omar Pacha has returned to the Sultan, making as conditions that he shall accept the command, that he shall have two votes in the council of war, in order to prevent his being out voted by Raglan and Canrobert.

Augusta Jan 11

The Legislature to day elected Woodbury Davis, of Belfast, Freesoiler, State Treasurer.

OATH BEFORE THE MAYOR

State of Missouri, County of St Louis } ss

BE IT REMEMBERED, That on this 5th day of May A D eighteen hundred and fifty three, before me, the undersigned, Mayor of the city of St. Louis, of the County and State aforesaid, came personally David M Smythe, who upon his oath, says that the following statement is true.

In testimony whereof I hereto set my hand the day and date last aforesaid. JOHN HOW, Mayor

Soo Newman, Register

St Louis Mo, May 5, 1853

Dr A G Bragg & Co—Gents. You will probably recollect that I called into your establishment some three weeks since and purchased a fifty cent bottle of your "MEXICAN MUSTANG LINIMENT." My object in doing so was to try its merits upon my daughter's arm, who has been suffering from the effect of a severe dislocation of the elbow for *several years past*.

The excruciating pain consequent upon a false setting of the bone, had dwindled and contracted her arm to a puny size, and I consider it a duty devolving upon me to acquaint the community of the beneficial effect your Liniment has produced.

Her arm was drawn to a right angle, and was almost inert and useless, until your invaluable Liniment was applied, since which time, I am happy to state, she has enjoyed uninterrupted good strength, and can use her arm nearly as pliantly as before it was dislocated.

I would state, however, that prior to trying your unequalled Liniment, I used several other remedies, and among them McLean's Volcanic Oil Liniment, but without the least beneficial result. D M SMYTHE

☞ Holloway's Ointment and Pills, the only Infallible Remedies for the Cure of Eruptions and Blotches on the skin.—John Younglove (aged 20) was a great victim through the follies of youth to eruptions on the skin, being covered with these unsightly blotches, in fact, he was utterly unfitted by his appearance to enter into society—This young man, eight weeks back, tried Holloway's Ointment and Pills, and by the use of these remedies, his blood was so cooled and purified that the whole of the blotches disappeared, and he now enjoys excellent health. These medicines will cure any disease of the skin even of twenty years standing.

NEW THEORY.

Dr A L Adams believes the proximate cause of all disease (or as he will have it, all forms of disease,) to be a retention in the system of worn out fluids &c, which of course should have been expelled. But being retained, *excite irritation, or debilitate the system*, causing various effects. The Dr says, with much assurance, that his LIVER BALSAM will expel properly and certainly from the system all impurities. Therefore he declares it will cure all curable complaints if taken *judiciously*. "We will try it."

—See advertisement in this paper.

SPECIAL NOTICES.

TO THE PHYSICIANS OF THE WEST!

And to All who use Liquor as a Medicine or as a Beverage.

PHYSICIANS who prescribe Alcoholic Liquors for Medicinal purposes should give the preference to WOLFE'S SCHIEDAM AROMATIC SCHNAPPS.

1 It is manufactured in Schiedam, in Holland, and exclusively in the factory of the proprietor, by processes and from materials elsewhere unemployed and unknown.

2 It is proved, by the repeated analysis of several eminent Chemists, to be entirely free from the pernicious fusil oil which remains in every kind of liquor distilled from grain, and which is the cause of the nervous and visceral derangement, serious congestion, and morbid desire for habitual and intemperate indulgence, which such liquors invariably tend to superinduce.

3 It is proved by the same unerring tests that the Juniper Gin is not flavored with the coarse, acrid and indigestible oil of juniper heretofore used, but with the superficial lighter and more volatile aromatic and medicinal of the two essential oils of the Italian juniper berry, neglected by every other manufacturer.

4 It is chemically proved to be absolutely pure in its rectification—a quality obtained by an entirely new process, and which no other Holland Gin in the world has acquired.

5 It is proved by extensive medical experience and testimony to be an efficient as well as an agreeable remedy in many cases of incipient dropsy, gravel, chronic gout, rheumatism, flatulence, colic, concretions in the kidney, and bladder, dyspepsia, fever and ague, general debility, sluggish circulation of the blood, deficient assimilation of food and exhausted vital energy.

6 It is a most grateful and renovating cordial and when used as directed, never inflames the system or induces inebriety, but tends rather to subdue the latter frailty, by creating a dislike to all inferior liquors. As it invariably corrects the ill effects of bad water, whether in swampy or limestone districts. In all of these combined qualities it has no rival in any market in the world.

Since the introduction of this celebrated medicinal beverage into the United States, a number of Liquor Houses in New York and our other large cities have commenced counterfeiting it. The genuine is only sold in quart and pint bottles, handsomely wrapped in yellow paper, with my name on the bottle, cork and label. I would advise those who use it medicinally, to purchase by the bottle, as Bars and Hotels are [illegible] fill any bottles with common gin and sell it for the genuine. For sale by all the respectable Druggists in the United States.

A Wonderful Discovery has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr C has restored many afflicted ones to perfect health, as an evidence of which, he has innumerable certificates. Speaking of the treatment a physician remarks:—It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists throughout the country.—*New York Dutchman, Jan 14th*

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL

Madison, Jan 11

The Senate met this morning full, Mr Reymert having arrived. On proceeding to elect officers Dr S G Bugh, the Chief Clerk of the last session, was re-elected by the full Democratic vote, thirteen Mr W [illegible] receiving the 10 Republican votes and those of Mr Rolfe and Mr [illegible] W H Gleason, Ser[geant] at Arms to the Assembly last year was [illegible] the other in Senate receiving 14 votes Mr [illegible] voting for him in addition to the Democratic strength. Mr W [illegible] D [illegible] is Assistant Clerk and Chas T Wakely Assistant Sergeant both worthy and capable men

Messrs Reymert and Kelsey are the Senate members of the Committee to wait upon the Governor

Mr Wakely introduced a resolution for a final adjournment on the 6th of March

The other business was merely formal, and the Senate adjourned to 10 A M to-morrow

In Assembly Col Atwood, the new Chief Clerk was qualified, and took his seat, with Mr Donaldson late member from Fond du Lac Co, as Assistant. They make a strong team, and business will no doubt go on with despatch and accuracy. I am under many obligations to Mr McHugh, the outgoing officer for courtesies shown at various times during his long service

Resolutions being in order, on motion of Mr Tophiff one was passed directing the distribution of the Laws and Journal of last session, and copies of the Revised Statutes

Mr Earnest offered a resolution directing the Chief Clerk to furnish the Postmaster of Madison with a list of members so that their post[age] may be charged to the State. A motion to suspend the rule requiring resolutions to lie over for a day failed, but one to the same purport was carried for this day though not soon enough to bring in the postage resolution

The chief Clerk was directed to inform the Senate that the Assembly had organised

Mr McIndoe offered a resolution inviting (by the Speaker) the resident clergy to officiate, one hundred dollars to be paid for their services for the session. Mr Hull moved to strike out all relative to the sum to be paid — *lost*. Mr Bennett moved to strike out all after the word "Resolved," This was opposed briefly by a member whose name I did not learn and Mr McIndoe called the ayes and noes upon the motion, and it was lost 27 to 3. Mr Van Nostrand moved a substitute proposing to have the Assembly elect a single chaplain, with a salary of $100 00 which proposition did not meet with favor, and Mr McIndoe's original resolution passed by 51 to 26

And now Mr Earnest called up his resolution to take care of the postage business, but before anything was said upon it a message came in from the Senate announcing the organization of that body, and Mr Stevens being present was also sworn at this time and also Van Nostrand took the opportunity to introduce a joint resolution to adjourn the Legislature finally on the 12th of March

And now came the postage resolution. Mr Van Nostrand moved its adoption, but Mr Rogan moved to lay it on the table, and it went there 42 to 39 most of the ayes Republicans

The Speaker announced Messrs Van Nostrand Tophiff and Hull as the committee to wait upon the Governor and Messrs Earnest, Gray, Crocker Pen[illegible] and Bond, as the Committee on Rules

A motion to adjourn failed 25 to 40

Mr McIndoe now fired a Lancaster shot into the camp in form of a resolution to return the stationery furnished. Mr Libetts proposed that a writ of replevin be issued at the same time against each member which proposition was acceptable to the mover of the resolution. A brief discussion followed eliciting from several members the expression of a determination to have a return of some at least of the articles so long practised here. Mr McIndoe's *stationery* resolution was made *stationary* by laying it upon the table 45 to 33

Mr Colley introduced a resolution to invite the Judges of the Supreme Court to meet the Senate and Assembly when the Message is delivered — The House then adjourned to 10 A M to-morrow. We shall probably have the Committees to-morrow

You have above the brief but sufficiently full record of the doings of the day. We shall probably get the Message to-morrow

I find that the good effect of the operations of yesterday in the House is quite perceptible, the Republicans having learned confidence in each other and in relation to an important matter soon to be upon the *tapis*, their effect is aptly illustrated by the remark said to have been made by a somewhat distinguished and active candidate for a high position. As he walked home last evening, he said "Well! I think it plain enough that Mr —— and myself may as well go home." But they will not go home. They will stay and do their best to divide the Republican strength, in which I have strong faith that they will fail. Rumor says now that Gov Doty and his friends are to make a strong effort to give him the regular Democratic nomination. The thing may possibly be done. But even that will be altogether insufficient to elect him, in all probability, since I see nothing as yet to diminish my confidence in a complete union and harmony among the Republicans, who will be aided by some Democrats who are decidedly Republican in sentiment — and the result will be just right

You will notice strong indications of a determination to carry out some of the pledges of reform made by members and on their behalf by the press. There is now existing an unnecessary [illegible] charge the State with their postage. If any method could be devised by which the franking privilege could be confined within its proper and reasonable limits, it would be well to adopt it — Certainly it is *not* reasonable that members should be obliged to pay their postage a large share of which is upon public business, out of their own pockets and there is no principle of Republicanism that I know of which requires it

The Sovereigns meet to-night

Bank of the North West — This is a new Bank organized and doing business at Fond du Lac. The officers are G F Moore President, [illegible] Tefferts Vice President, A G [illegible] Cashier. Directors G F Moore, Bertine Pinckney, [illegible] Ruggles, John H Martin, [illegible] Tefferts, Edward Pier, John Bannister, John Sewell

The *Herald* speaks highly of the character [and] responsibility of the officers of the Bank, and adds *that the stock [is] all taken and the money paid in*

The Ohio Democracy — The Sham Democracy of Ohio met in State Convention at Columbus on the 8th instant and renominated Col Medill for Governor Jas Myers for Lt Governor Judge Kostner for Supreme Court Judge, W D Morgan for Auditor and J G Breslin for Treasurer. The "platform" adopted glorifies Gen Jackson, recommends publication of farewell address endorses the Union of the States proposes a revision of the Constitution of 1850 and commends the efforts of the General Government to make gold and silver the currency of the country proclaims hostility to an undue exercise of power by the General Government in favor of cheap lands to the landless in favor of the compromises of the Constitution — adheres to the Baltimore platform of 1852, denounces slavery and the Know Nothings — in favor of a law prohibiting the banks from collecting their dues also, to prevent the receipt of bank notes for taxes

The Missing Miss Moore — The Cincinnati *Commercial* of the 5th instant, says

A young lady supposed to be Miss Emma Moore about whose mysterious disappearance from Rochester a few weeks since so much has been said in the newspapers, was taken into custody at a boarding house on Fifth street, near Western Row, yesterday morning, and sent to the House of Refuge. She will be detained until advices can reach here from Rochester, N Y.

U S DISTRICT COURT

JUDGE MILLER PRESIDING

State of Wisconsin, } ss
Milwaukee County }

The United States vs Sherman M Booth, *Indicted for Aiding in the Rescue of Joshua Glover, and Resisting United States Officers*

District Attorney Sharpstein and E G Ryan, Attorneys for the Government. Jas H Paine & Byron Paine, Attorneys for Defendant

THIRD DAY

Friday January 12

H Boswell sworn — Was at the square the day of the rescue, time the jail was broken — saw defendant there at that time — heard remarks of defendant on the roof of County offices but could not distinctly hear him was too far off — heard him when report of committee from Judge Miller was made — the subject, as near as I remember, was that he was disappointed in that the writ could not be served and that the man would have to stay in jail till Monday — defendant advised the people not to commit violence — after the report of the committee was made the people seemed to be still, but soon after there was a move towards the jail and it was soon broken open

Cross Examined — Was at the meeting in the forenoon and most of the afternoon — didn't see Racine delegation, but understood they had come — Mr Watkins stated in substance that Judge Miller had refused to acknowledge the writ of habeas corpus and that he stated the man was in jail and must remain there till Monday — heard defendant speak against the fugitive slave law, and it was in the same speech when he counselled them not to commit violence — defendant spoke immediately after Mr Watkins — he was in the street and on horseback — saw the negro taken out of the jail — saw him put in the wagon saw the wagon drive off — don't know who was in the wagon — don't know where defendant was at that time — don't remember defendant or any one else remarking, that if they felt like the speaker, he knew what they would do — I stood close to the defendant — I heard him speak indignantly against the fugitive slave law — my impression at the time was that Mr Booth spoke very earnestly against violence — he seemed to be certain there was a better way than this, and I thought he wanted to make that impression upon the crowd — when the jail was broken the whole crowd cheered as near as I could judge

Direct Resumed — The cheering seemed to commence when the attack was made on the jail, and when the negro was brought out, the cheering was more general

Mason Smith, sworn — Was at the square on day of rescue heard deft make remarks on horseback, on the East side of the square amongst his remarks, he wouldn't advise them to use any violence

Cross Examined — Among his remarks he said he loathed the fugitive slave law — think he said that first, and said, but he wouldn't counsel violence — didn't hear him say that if they felt like him, he knew what they would do. About 20 minutes after Mr Booth spoke before the jail was broken — saw the wagon driven off but didn't see any person on horseback near it

Hiram Church, sworn — Saw deft riding on horseback near U S Hotel on day of rescue, heard what he said — "O ye Friends of Liberty, meet at the Court House at [illegible] o'clock." Heard some person ask him what they wanted to meet at the Court House for, and he said "come and I will tell you or come and see" he cried out in a loud voice, he rode by and did not stop, heard nothing said about a rescue

Cross Examined — His horse was on a hand gallop he was going south, he was crying out, which attracted my attention to what he said when he came up

Erastus D Baker, sworn — Was in city on 11th March last, saw deft on that day between 8 and 11 in the forenoon heard him speak about the imprisonment of Glover saw him mount a horse and commence riding

Simeon Babcock, sworn — Went to the Court House, the day of rescue, saw defendant there, heard some one ask him what 'forthwith' meant, Mr Booth replied that its meaning, according to Webster, was as soon as it could be done, but according to Judge Miller, it meant next Monday morning. Soon after that, the jail was broken, some of the people cried out "lets have him out" Mr Booth counselled them to commit no violence

Cross Examined — Saw the wagon with the negro in it as it went down street, didn't see the defendant on horse back accompanying it nor again that afternoon

Direct Resumed — Should judge that the remarks of the defendant could be heard only by those immediately around him. Some of them left to go towards the jail — twas then that Mr Booth counselled against violence

William Lee, (sworn) — Was at court house square day of rescue saw deft heard him make remarks. I was there at the appointment of committees in front of the court house steps, heard the remarks made on the resolutions did not hear any body counsel violence, did not hear Mr Booth counsel violence. The object of the meeting seemed to be to obtain the man a fair hearing, and to appeal to the laws of the land. Heard defendant speak on his horse, on Jackson Street, he counselled them not to commit violence. Mr Watkins had spoken, and a good deal of feeling was manifested by the crowd at the remarks of Mr Watkins, then Mr Booth spoke and counselled no violence

Cross examined — Think deft spoke against the fugitive slave law pretty strong think deft said something like this, that if the crowd all felt like him he knew what they would do. I am pretty sure such remarks as those were made by the deft. I left soon after, before the jail was broken "I thought the concern was pretty much wound up for the day and I left" saw deft on foot in the square but at what time cant remember

Direct resumed — There was more feeling manifested at the close of Mr Watkins remarks than before. After Mr Booth had finished speaking the crowd appeared quiet and I started to go home, thinking it was all quieted

Henry Clark sworn — Was present when Glover was taken out of jail, near by — saw him when he came out — didn't see deft there at the time, nor while the jail was being broken — saw him after that, but not on the ground — I was on horseback, rode ahead of the wagon — I rode to the wagon at corner of Oneida and Jackson streets, then rode behind it to Jefferson street, then passed it between Messenger & Wisconsin streets then ahead as far as Butler's stable, and held up till it passed — rode beside and behind it to Walker's Point bridge — did not see anything of defendant — he could not have been near it without me seeing him. Witness stated that he (witness) asked the man in the buggy where he wanted to take the negro — he replied anywhere he wanted to go he was then put in the buggy — Captain Jennings asked the negro if he would be safe with the man in the buggy — Mr Booth didn't know who the man was in the buggy — defendant said he was sorry, the jail was broken open

[We understood the witness to state once that "Captain Jennings asked the negro if he would be safe with the man in the buggy, and again we understood him to say that Captain Jennings asked Mr Booth, if the negro would be safe with the man in the buggy. But we were unable to condense his evidence to the real intent of his statements, as the answers were given both ways]

Cross Examined — Mr Booth wanted to know if the negro would be safe in the hands of the man, and asked who the man was had been at court house an hour before the jail was broken perhaps two hours had no business there except curiosity. I was not there to aid in the escape of the negro. I asked at the bridge what Messenger was going to do with the negro he said he would take him anywhere he wanted to go, I then went back and told the people in the wagon. Saw the deft when he rode up didn't hear him say that he was satisfied that Messenger was a safe man, or that he approved of his being put in the buggy — I swear that from the time that the wagon left the Court House till it got to the bridge Mr Booth was not riding by or accompanying it, don't think he could be it would be impossible for him to have been, and me not have seen, he might have been laying in the bottom of the wagon

Direct Resumed — From the position of Mr Messenger ahead of the wagon at the bridge Mr Booth had no opportunity of seeing his face — deft asked who it was in the buggy, didn't hear deft reply when he was told who it was

H N Thompson sworn — I was standing in front of Ruh's store when defendant came by on horseback down the street — he said several times, "freemen turn out — he said the court house bell would soon be ringing, and wanted people to attend — didn't hear him say anything about rescue — he didn't use any such language

Cross examined — Heard him crying out before he got opposite me and until he got by me, and until he got out of hearing — he might have made different expressions above or below me but not when he was opposite me unless he spoke very low

E L H Gary was sworn — Was at the court house square a few minutes, about [illegible] o'clock — saw the wagon which the negro was in — got into the wagon of a friend and rode after the wagon till it got to Walker's Point bridge saw nothing of defendant following the wagon — when we arrived at the bridge defendant was not there — he arrived about two or three minutes afterwards

Cross examined — Think there was another wagon accompanying it, saw no person on horseback, did not see Edwin Palmer or Clark that I know of, don't know Captain Jennings. Might have known the people in the wagon at the time, but don't remember them now. When the negro arrived at the bridge a number of men came up and shook hands with him he appeared to recognize them, think they called him Glover. My principal business was to get a sight at the [illegible]. There were two or three buggies at the bridge saw the negro get out of one wagon and get into another the one he got into was nearer the bridge than the one he got out of did not see the defendant pass between the wagons. About five minutes after deft came there the negro was removed from one wagon to the other. Did not hear deft say anything after he got to the bridge

Defence rested — 25 minutes to 12 M

Prosecution called Thomas Christian sworn — Was in Oakley's employ at the time of the rescue, Joseph Heath came to our stable about 5 P M for a team of Mr Booth's horse. Question — What did he say when he came for that team. Objected to — objection sustained. Witness continued. Mr Heath got no team there

William R Perry sworn — Know Herbert Reed, saw him the day of rescue. Question — Did you have any conversation with Mr Reed on the morning of that day. Objected to, and argued at length and finally overruled by the court

Captain Jennings recalled by prosecution. Witness expressly denied asking Mr Booth at the bridge whether the negro would be safe in the hands of Mr Messenger part of the time was within two or three feet of Mr Booth

By a Juror — I cannot be confounded between Mr Booth and Mr Clark

Cross Examined — Have no strong prejudice against Mr Booth personally, am pretty positive that I never said I was glad Mr Booth was in prison, or that he ought to be in Waupun, am pretty careful as to what expressions I make use of about any one

Prosecution rested again

Defence offered to call two witnesses to rebut Capt Jennings, but was not allowed the court stating that they had made him their witness by cross examination, and they would not be permitted to contradict by others

Court here adjourned till 2 P M

The afternoon and evening were wholly occupied by the Counsel in summing up. Our report of their speeches is crowded out by the Governor's Message

☞ The New York *Tribune* of Friday among other contributions for the benefit of the Poor, acknowledges this mite from Wisconsin:

Short and Sweet — "Inclosed is one dollar "for the relief of the poor" I am a little girl twelve years old, and have earned this money by my own labor. H A S Milwaukee"

Editorial Personalities — The New York *Tribune* thus winds up an article upon the dignity of journalism

Whenever editors raise the standard of mutual respect whenever they become in fact what they are in theory — a profession, whenever they have a common and current creed of gentlemanly behavior as *editors* no less than as *men* — then will the evils complained of be cured, and society spared the merciless infliction of private wrongs upon its notice. Editors ought to know that the bare fact of their commanding the use of the open daily, does not entitle them to persecute the public with editorial quarrels. These are incidents of their private business, and ought to be so treated

Nomination for Congress.

The Charge of the Light Brigade at Balaklava.

[The London literary correspondent of *The Tribune* recently said that Tennyson could not write on the themes of the present war, but the following thrilling lyric which we take from the last *London Examiner* is a splendid refutation of that criticism — N Y *Tribune*]

Half a league, half a league,
Half a league onward
All in the valley of Death
Rode the six hundred

Into the valley of Death
Rode the six hundred,
For up came an order which
Some one had blundered
Forward the Light Brigade
Take the guns, Nolan said
Into the valley of Death
Rode the six hundred

Forward, the Light Brigade!
No man was there dismayed,
Not though the soldier knew
Some one had blundered
Theirs not to make reply,
Theirs not to reason why,
Theirs but to do and die,
Into the valley of Death
Rode the six hundred

Cannon to right of them
Cannon to left of them,
Cannon in front of them
Volleyed and thundered
Stormed at with shot and shell,
Boldly they rode and well
Into the jaws of Death
Into the mouth of Hell,
Rode the six hundred

Flashed all their sabres bare
Flashed all at once in air
Sabring the gunners there,
Charging an army while
All the world wondered
Plunged in the battery smoke,
With many a desperate stroke
The Russian line they broke,
Then they rode back but
Not the six hundred

Cannon to right of them
Cannon to left of them,
Cannon behind them
Volleyed and thundered,
Stormed at with shot and shell,
While horse and hero fell,
Those that had fought so well
Came from the jaws of Death,
Back from the mouth of Hell,
All that was left of them,
Left of six hundred

When can their glory fade
O the wild charge they made
All the world wondered
Honor the charge they made!
Honor the Light Brigade,
Noble six hundred!

THE MARKETS.

OFFICE DAILY SENTINEL
Milwaukee January 13 1855 }

RECEIPTS BY M & M RAIL ROAD, Jan 12 — 3674 bus wheat 79 bbls flour, 38 bbls highwines 31 bales brooms, 630 hogs, lot hides and mdse

RECEIPTS BY M & W RAILROAD — 1015 bus wheat 38 bbls flour, 105 hogs, 8 bags buckwheat flour, 1 lot hides

Good receipts yesterday, market active and prices well sustained. We quote

Wheat — quick, at 1,25@1 30 for Spring, 1 35@1 40 for Winter

Barley — in demand, at 80@90, Rye at 75@80, and Corn at do

Oats — steady, 30@35

Pork — heavy receipts, and range of market 3 70@3,90

Weather very mild and river open,

Indiana Money — Bank Notes Inflated — The Cincinnati *Gazette* of the 9th instant says

The Indiana free banks have been divided into three classes and the notes were selling to-day as follows, 1st class, 5 per cent discount 2d do 12 do 3 do 20@25 do — New York and Virginia Bank, Evansville, Indiana Stock Bank, at Laporte Prairie City Bank, and all Indianapolis banks were received by some houses from their correspondents at par. The list is so liable to vary that its publication would be calculated to mislead distant readers, as notes saleable to-day at 5 discount, might be 25 to-morrow

The most startling discovery of the age is that by which a bank note or other writing or engraving is copied to such perfection as to defy the best judges. Last week a photographist copied a note of the State Bank of Ohio, and the spurious bill, was presented to and received as genuine by three of the most experienced Bank Tellers in the city, and even after being told that it was not genuine they contended that it was good. Unless this discovery can be overcome confidence in Bank notes will be destroyed

Cincinnati Market — Jan. 8.

Flour and Grain — The market was quiet for Flour to-day and the only sales heard of were 150 bbls at $7,75 and 50 do at 7 50. In Grain, 400 bus Barley sold at $1, and 200 do at 1 28

Provisions — The market was very quiet to-day, and the only sales heard of were 300 bbls prime lard, in kegs, at 8½c. Mess pork was offered at 11a11,25

Hogs — The market was heavy and unsettled to-day — The only sales heard of were 290 head, dividing on 180 lbs at 4a4,50, and 170 do, averaging 170 lbs, at $4,

[SPECIAL DESPATCHES TO THE SENTINEL]

New York, Jan 12

Senator Norris, of New Hampshire, died at Washington last evening of disease of the heart

[REPORTED FOR THE SENTINEL]

Further Details by the Baltic.

New York, Jan 12

The *Africa* arrived out on the 24th. The *Sarah Sands* had put into Cork, with her sails damaged, and would proceed to Liverpool. The *Arabia* sailed from Marseilles on the 21st, with 1640 French troops for the Crimea

In regard to the Russian mission to London, of which high expectations have been formed, it was surmised that the envoy was merely the bearer of an autograph letter to the Queen, and that his instructions were merely to watch the course of events. Nothing certain, however was known

Affairs before Sebastopol were unchanged to the 26th of December. The Russians claim to be doing considerable damage to the approaches of the allies. Nevertheless the French 3d parallel was mounted with cannon. Reinforcements of the allies down to the 15th reach 18,000

An official dispatch in Paris Moniteur from Balaklava says the situation of the allies is excellent. Menschikoff was sick and Gen Osten Sacken was in command, 5,000 Turks had landed at Eupatoria the destination of Omar Pacha, was kept a profound secret, It is thought they would invest north side of Sebastopol

The wretched state of the roads from heavy rains, had put a stop to operations between Perekop and Simpheropol. The road was completely impassable and a week had elapsed since a courier had arrived at Odessa from Sebastopol, but at last accounts the weather had improved with heavy frosts

Admiral Hamelin, writing on the 19th, says the place had kept up a brisk fire. The enemy had made vigorous sorties on our lines and those of the English. As soon as he reached the parapets he was received by a well sustained fire of musketry and repulsed at the point of the bayonet after an obstinate struggle. The skirmish occurred at Inkerman on the 15th

Omar Pacha left Shumla for Constantinople on the 14th. Turkish troops began to arrive from the Varna on the 18th

A letter in the Sa[illegible] says that the defence is to be conducted on a new plan. The costly material will be removed from the bastions on the walls and carried back to the ships. Twenty two ships have been equipped and are now ready for sea. It is probable the garrison have mined the places which they pretend to have left

The Tremolin Blatt says also the defence of Sebastopol will be confined to the forts. We have further particulars as to naval sortie before Sebastopol. Two Russian steamers towing six gun boats, run out of the harbor, and after firing on a French steamer were compelled to retire

Orders had been received at Warsaw to complete the substantial works of the citadel within the first fortnight of January. Marshal Paskiewitch has ordered the enrollment of three parks of flying artillery and the completion of a second grand army of reserve to be concentrated in and around Moscow. Twenty thousand men were engaged in fortifying Kiel, on the Baltic

France and England have notified the Swedish Government, that all the Russian harbors are to be closed. A Russian ukase is published, which says whoever after a battle shall commit acts of cruelty on the wounded or unresisting, will be punished by death

Eight English ships were taking soundings off Eltchakoff and hence it is surmised the allies will make an attack on Kirgam, preparatory to an attack on Perekop. A levy of 10 men on every 100 is ordered to take place in the eastern half of the Empire to be completed by the 10th of March

There is a report that Omar Pacha has returned to the Sultan, making as a condition that he shall accept the command, that he shall have two votes in the council of war, in order to prevent his being out voted by Raglan and Canrobert

Augusta Jan 11

The Legislature to-day elected Woodbury Davis, of Belfast, Freesoiler State Treasurer

OATH BEFORE THE MAYOR
State of Missouri, } ss
County of St. Louis }

BE IT REMEMBERED, That on this 5th day of May A D eighteen hundred and fifty three, before me, the undersigned, Mayor of the city of St Louis, of the County and State aforesaid, came personally David M Smythe, who upon his oath, says that the following statement is true

In testimony whereof I hereto set my hand the day and date last aforesaid JOHN HOW, Mayor
Soc Newman, Register

St Louis Mo, May 5, 1853

Dr A G Bragg & Co — Gents. You will probably recollect that I called into your establishment some three weeks since and purchased a fifty cent bottle of your "MEXICAN MUSTANG LINIMENT." My object in doing so was to try its merits upon my daughter's arm, who has been suffering from the effect of a severe dislocation of the elbow for *several years past*

The excruciating pain consequent upon a false setting of the bone, had dwindled and contracted her arm to a puny size, and I consider it a duty devolving upon me to acquaint the community of the beneficial effect your Liniment has produced

Her arm was drawn to a right angle, and was almost inert and useless, until your invaluable Liniment was applied, since which time, I am happy to state, she has enjoyed uninterrupted good strength, and can use her arm nearly as pliantly as before it was dislocated

I would state, however, that prior to trying your unequalled Liniment, I used several other remedies, and among them "McLean's Volcanic Oil Liniment," but without the least beneficial result D M SMYTHE

☞ Holloway's Ointment and Pills, the only Infallible Remedies for the Cure of Eruptions and Blotches on the skin — John Younglove (aged 26) was a great victim through the follies of youth to eruptions on the skin, being covered with these unsightly blotches, in fact, he was utterly unfitted by his appearance to enter into society — This young man, eight weeks back, tried Holloway's Ointment and Pills, and by the use of these remedies, his blood was so cooled and purified that the whole of the blotches disappeared, and he now enjoys excellent health. These medicines will cure any disease of the skin even of twenty years standing

NEW THEORY.

Dr A L Adams believes the proximate cause of all diseases (or as he will have it, all forms of disease,) to be a retention in the system of worn out fluids &c, which of course should have been expelled. But being retained, *excite irritation, or debilitate the system*, causing various effects. The Dr says, with much assurance, that his LIVER BALSAM will expel properly and certainly from the system all impurities. Therefore he declares it will cure all curable complaints if taken *judiciously*. "We will try it."

SPECIAL NOTICES.

TO THE PHYSICIANS OF THE WEST!
And to All who use Liquor as a Medicine or as a Beverage

PHYSICIANS who prescribe Alcoholic Liquors for Medicinal purposes should give the preference to WOLFE'S SCHIEDAM AROMATIC SCHNAPPS

1 It is manufactured in Schiedam, in Holland, and exclusively in the factory of the proprietor, by processes and from materials elsewhere unemployed and unknown

2 It is proved, by the repeated analysis of several eminent Chemists, to be entirely free of our the pernicious fusil oil which remains in every kind of liquor distilled from grain, and which is the cause of the nervous and visceral derangement, serious congestion, and morbid desire for habitual and intemperate indulgence, which such liquors invariably tend to superinduce

3 It is proved by the same unerring tests that the Juniper Gin is not flavored with the coarse, acrid and indigestible oil of juniper heretofore used, but with the specifically lighter more volatile aromatic and medicinal oil of the two essential oil of the Italian juniper berry, neglected by every other manufacturer

4 It is chemically proved to be absolutely pure in its rectification — a quality obtained by an entirely new process, and which no other Holland Gin in the world has acquired

5 It is proved by extensive medical experience and testimony to be an efficient as well as an agreeable remedy in many cases of incipient dropsy, gravel chronic gout, rheumatism flatulence, colic, concretions in the kidney, and bladder, dyspepsia, fever and ague, general debility sluggish circulation of the blood, deficient assimilation of food and exhausted vital energy

6 It is a most grateful and renovating cordial and when used as directed, never inflames the system or induces inebriety, but tends rather to subdue the latter frailty, by creating a dislike to all inferior liquors. And it invariably corrects the ill effects of bad water, which in swampy or limestone districts. In all of these commendable qualities it has no rival in any market in the world

Since the introduction of this celebrated medicinal beverage into the United States, a number of Liquor Houses in New York and our other large cities have commenced counterfeiting it. The genuine is only sold in quart and pint bottles handsomely wrapped in yellow paper, with my name on the bottle, cork and label. I would advise those who use it medicinally, to purchase by the bottle, as Bars and Hotels frequently fill my bottles with common Gin and sell it for the genuine. For sale by all the respectable Druggists in the United States

VOLUME XI. MILWAUKEE DAILY SENTINEL. NEW SERIES.

GOVERNOR'S MESSAGE

Fellow-Citizens of the Senate and Assembly:

You, having assembled to discharge the high and responsible trust confided by the Constitution to the representatives of the people, it becomes my duty to lay before you such information concerning the condition of the State as I may possess and to recommend to your consideration and action such matters as, in my judgment, the wants and interests of the people demand at your hands. But before proceeding to the performance of that duty, I regard it as not only proper, but even obligatory upon me to advert to the results of the year which has just closed, and to indulge in congratulations to an extent never before warrantable in the history of Wisconsin. With the exception of the epidemic which has prevailed so generally throughout our country, it may be truly said, that the past year has been one of more than ordinary good health, even in this State—so remarkable for its salubrity. Prosperity has crowned enterprise and industry, in whatever channel exerted, until the admission is compelled from all, both at home and abroad, who are acquainted with its resources, that no State presents greater inducements to the various industrial classes than our own. It has been ascertained that the am't of our exports during the past year (including lumber and mineral) has exceeded the sum of thirteen millions of dollars.

While a great commercial revulsion seems to be visiting many sections of the Union, crippling their resources and impairing their prosperity, no State shares less in its effects, or is better prepared for its consequences. We have but to pursue that onward, though cautious policy, which has characterized our course, thus far in order to ensure the occupancy of that desirable position among the confederated States, which an energetic and an efficient population—favored by our advantages of soil and climate, joined to a fortunate commercial position—are so well calculated to command. Let us faithfully endeavor to perpetuate our prosperity and happiness—relying with confidence upon the Supreme Ruler for strength and wisdom.

While the wants and varied interests of a young and growing State like ours, necessarily call for much legislation, there is not at this time an apparent amount of legislative labor necessary to be performed sufficient to justify a protracted session. Excessive legislation is too frequently indulged in—resulting in onerous taxes and the enactment of conflicting and unwholesome laws. Still, while I believe it to be my duty to urge upon you the propriety of a brief session, and a rigid observance of economy in the expenditure of the public moneys, I am far from meaning to be understood as wishing to curtail either, to the prejudice of any interest which it may be your duty to provide for or protect.

Among the important matters to which I wish particularly to invite your attention, and on which, in order to secure a proper and timely result, it will become your duty to act at an early day, is that of a careful examination of Official Reports, and the real condition of the several departments of the State Government. These reports will immediately be laid before you, and they will be found to be full and explicit. Your constituents have a right to claim at your hands, such information as you may be able to obtain; and it is your duty to investigate closely into the doings of those intrusted with their interests. The conduct of all public servants, under our form of government and laws, is, and should be, subject to inspection; and, upon a thorough and careful examination, it is but simple justice to all parties concerned that the people should know and understand the result. This duty of the Legislature, though frequently demanded of them by the officers themselves, has, I regret to say, been too long neglected and shamefully evaded.

The Reports of the Secretary of State and State Treasurer, will exhibit to you in detail, a full statement of the receipts and disbursements of the Treasury Department, during the fiscal year, closing on the 31st day of December, from which I am enabled to lay before you such information concerning the same, as I deem important for the purpose of this communication. It appears that the entire amount paid into the Treasury during the year 1854, on account of the various funds—was, $401,729 41

Viz: Account of General Fund	$101,259 48	
" Principal of School Fund	85,[illegible] 77	
" " University do	9,91[illegible] 89	
" Income of School Fund	106,235,63	
" " University do	8,775,07	
And balance in the Treasury, January, 1st 1854 on account of all Funds.		$57,436,19
Total		$459,274,90

During the same period the disbursements appear to have been as follows, viz:

Account of General Fund,	$222,154,19
" Principal of School Fund, including loans	81,996,06
" Principal of University Fund do do	21,898,83
" Income of School "	97,189,89
" " University "	10,640,11
" Fox and Wis. Improvement Fund,	129,00
	$437,007,43

Showing a balance in Treasury, on the first day of January, 1855 on account of the various funds of $22,267,47

The Secretary of State, in his report, estimates the amount probably necessary to be drawn from the Treasury, on account of the General Fund during the present year, to meet present and accruing liabilities, at $253,059,52

In this estimate, it is proper to state that the sum of $111,639 12 is included, as necessary to meet arrearages, arising from the erection of Penitentiary buildings and support of convicts during the past and present year, also the sum necessary to be applied toward the erection of a Lunatic Asylum and the completion of a portion of the buildings designed, and the support of the Institutions established, for the education of the Blind, and Deaf and Dumb,

To meet the foregoing liabilities, the resources are stated as follows, viz:

State Tax as levied and equalized under the act of 1854		$225,000,00
Bank Tax,	(estimated)	30,000,00
Rail and Plank Road Tax,	(do)	9,000,00
Miscellaneous Resources,	(do)	24,829,91
Total,		$288,829,91

Among the matters of interest presented by this report, is a brief review of the public expenditures since the admission of Wisconsin into the Union—showing the yearly appropriations therefor, from 1848 to 1854, inclusive—amounting, in the aggregate, to the sum of $830,244 30, of which $54,071.51 was in the years 1848-9; $74,671 38 in 1850; $112,120 30 in 1851; $122,474.06 in 1852; $163,910 56 in 1853, and $264,602.07 in 1854. Of the last named sum, appearing under the head of expenses for 1854, $63,696.03 was for the expenses of other years, so that the actual expenses for the objects of 1854 were $200,996.04, inclusive of such as are provided for by permanent provisions—thus only exhibiting that annual increase in public expenses, consequent upon the organization and progress of a new state, and growing in a great measure out of the necessary expenditure in providing Penitentiary and other public buildings, and the establishment of charitable institutions. While from the foregoing it would appear that the expenses for the year 1854 were between thirty and forty thousand dollars more than for any previous year, yet the aggregate for general purposes for that year was evidently some forty thousand dollars less than for 1852. This is accounted for by the fact that upwards of $80,000 more than in any previous year for such purpose was appropriated for the erection of a State Prison, Lunatic, Deaf and Dumb, and Blind Asylums—including the moderate appropriations made for the benefit of the State Agricultural and Historical societies; all of which did then, as they do now, appear to be just and worthy objects of legislative favor; and some of which at least must continue to be objects of that character, and destined to create no small portion of the public expenses, unless other provisions than at present exist, are made for their defrayal.

With the suggestions of the Secretary, in relation to existing laws, on the subjects of the registration of marriages, births and deaths; foreign insurance agencies, the judiciary fund; the fixing of a penalty in the event of a failure of Town Assessors to make return, and the publication of the election laws, I most fully concur.—His exhibit, however, of the expense heretofore incurred by the Legislature, for newspapers and postage is worthy of more than a passing notice at this time, and can but impress you with the importance of a reform in respect to these matters. It appears that the expense for those two items alone, has for several years, averaged nearly ten thousand dollars annually: a very large proportion of which, I have ever regarded as unnecessary and unwarrantable in its character, and should be reduced and confined to such sum as the legitimate object of legislation may properly demand.

The report of the Board of Commissioners of School and University Lands, has been elaborately prepared, and comprises much of interest, connected with the responsible trust committed to their charge.

It appears that the aggregate principal of the School fund, amounted on the first day of January, to the sum of $1,670,253 77; being an increase, during the past year of $528,454 49, derived chiefly from the sale of lands. The gross amount of interest, received since the last apportionment made to common schools, including the sum payable prior to the tenth day of March next, (that being the time fixed by law for the annual distribution) is $142,434 29; which, according to the estimate of the State Superintendent of Schools, is equal to 93 cents for each scholar—an increase of 21 cents over the previous year.

The claim of the State to the quantity unselected of the 500,000 acre grant, amounting to about 125,000 acres, belonging to the school fund, and heretofore denied by the General Government, upon the ground that there was an arrearage due the Government from the State, arising from the connection of the Territory with the Rock River Canal, has, during the past year, been amicably adjusted, upon terms entirely favorable to the State; and the lands thereby accruing have been chiefly selected. It seems highly probable that a like favorable adjustment will be had, of our claim to the five per centum of the net proceeds, arising from the sales of Government lands, to which the State is entitled; amounting at this time, it is supposed, to about $60,000, and withheld by the Government, for the same cause; as will more fully appear from a statement of the facts of the case, and the argument of the matter, which will be laid before you.

Considerable additions have been made to this fund during the past year, arising from fines collected by agents appointed for that purpose, under an act authorizing the same; a large proportion of which, it is believed, never would have reached the Treasury, except through the operation of some similar enactment. A defect in the law, however, it is said, has in some instances been made an excuse for not paying; to the correction of which, your attention is invited. The rapid increase of this fund, exceeding so greatly the early anticipations formed in regard to it, affords cheering evidence of its ultimate sufficiency, for the purpose intended. To know that the means of obtaining a common school education are within the reach of all, is a source of just pride and congratulation, and should prompt us to protect them by the erection of such safeguards as the interests and well-being of posterity demand. Under an act of the Legislature of 1854, requiring the commissioners and Governor to revise the mode of keeping the school and university accounts and records, important improvements have been made, and the work contemplated by said act, is rapidly progressing. In order, however, to ensure the continuance of this, a more permanent provision for the expenses, than at present exists, should be made therefore at the present session; and I can conceive of no just cause why such expenses should not be paid from the fund, for which they are incurred.

As the law now is, in cases where the interest due upon School and University Lands purchased has not been promptly paid on the day it became due, there have been a number of instances where the lands thus forfeited have been entered by others; and upon their making the payments required, the original purchasers have been deprived of all their rights in the property. This, in many instances, is calculated to work extreme hardship to those who, through ignorance or accident, fail to pay the interest due upon the day fixed; and some provision should be made, either for extending the time after advertisement, or giving the parties concerned such reasonable equity of redemption as will enable them to retain their lands, if they wish so to do. In this connection and with a view of subserving the best interest of the State, without prejudice to the fund, I submit to you the propriety of providing a reasonable limit to the quantity of School and University land which any one individual may hereafter purchase; and, as far as practicable, insure the occupation of the same to actual settlers.

This I deem to be the best policy to be pursued on the part of the State, and by the encouragement thus rendered to a class of citizens whose principal resources consist in their energy and industry, the fund may be advantageous to as great a degree as under the present system and the State at large will be benefited to an extent, which the practice of monopolizing large tracts, by a few individuals, has a tendency to prevent. The only class whose interests such action will have a detrimental effect upon, is one composed of speculators merely, and who are not the tillers of the soil. An instance of such attempted monopoly occurred during the year 1853 when a few parties combined, and bought in connection, upwards of 130,000 acres; and also during the last year, a single individual purchaser appears upon the books of the department as the proprietor of nearly 50,000 acres; and in sundry other instances, similar operations, on a similar scale, have occurred. If without detracting from the proper fund, and the income arising therefrom, this growing evil can be prevented, I deem it to be your duty to provide the same by such enactments as are best calculated to ensure the desired result.

I recommend to your especial notice the very full and clear report of the State Superintendent, as exhibiting ample evidence that our common school system was well devised, and is now thoroughly organized—having, by its practical operations, demonstrated that the hopes early formed in regard to it were not extravagant. The cause of education in this State has manifested a degree of prosperity that furnishes us with good reason for rejoicing; and the degree of interest not only exhibited, but felt by all in its advancement and permanent establishment, affords strong testimony of its continuance and value. The various institutions of learning established in different parts of the State, and not assisted from any fund over which it has the charge, are all as flourishing and prosperous as we could, at this early day, have any reason to hope they might be. We have cause to be proud of the fact that so many of them, conducted as they are by able and learned men, have already been reared in our cities and villages, and are spreading widely their beneficial influence. The second dormitory building of the State University is now nearly completed, and will be ready for the reception of students by the first day of June. It affords me pleasure to state that this valuable institution continues to increase its influence and usefulness, and is steadily progressing in all its departments. The report of the Board of Regents, which has not yet been received, but which will in a short time be laid before you, will exhibit particularly all matters of interest connected with the University, and will doubtless merit your attention. The gross amount of the University fund, on the first day of January, amounted to $161,146.61. The amount of income applicable to the support of this institution for the present year, including the accruing interest for 1855, is $12,405.45

The report of the Bank Comptroller enables me to lay before you reliable information, concerning the operations of the various banks, under the General Banking law of the State. It appears that the number of Banks established, and transacting business, under the law is *twenty four*, with an aggregate capital of $1,450,000 00. The amount of securities, consisting entirely of State Stocks deposited with the Comptroller, is $1,033-000; upon which the issue of circulating notes amounted on the first day of the present year, to $937,593—yielding a revenue to the State, by tax, for the year 1854, of $18,165 62.

It is a gratifying fact, and one upon which we may congratulate ourselves, that thus far the practical working of our banking system, gives evidence of its superiority over many, if not over all, those adopted by other States. Notwithstanding numerous failures of banking institutions in other States, and the money panic, which of late has so generally prevailed, but one of the institutions, organized under the general law of this State, is reported to have failed to redeem promptly its notes. As an evidence of great determination on the part of bankers, to merit confidence, in nearly every instance, upon the request of the Comptroller, additional securities have been deposited to an amount corresponding with the recent decline in the market value of stocks, or by the return to the Comptroller of an amount of circulating notes equal to such depreciation. The promptness evinced by the banks, in thus responding, and the sound discretion exercised in the management of a department so important to the credit and business interests of the State, cannot but command your approbation.

Our banking law, although generally regarded as being as well adapted to secure the interests of the bill holder, as any which could well be framed, yet it is not void of defects, which are pointed out in the report of the Comptroller, and will, I trust, receive your attentive consideration. and in that connection it may be well to consider whether there is not a class of securities within our own State, of the nature of bonds issued by some of the principal cities, that may under proper restrictions be received as the basis of banking.

The present unsettled condition of monetary affairs, which is pervading the country so generally, and more recently brought nearer home to us, with increased deleterious effects, in consequence of numerous Bank failures in neighboring States, induces me to invite you to the examination of the subject, and urge upon you the necessity of such enactments as will, as far as practicable, provide a remedy, and protect the people against the imposition and fraud, so frequently practised by the introduction and circulation of doubtful currency, brought to our State and forced into very general use—not unfrequently through the aid of local bankers, who neither hold themselves responsible for its redemption, or make it a source of revenue to the State by the payment of a tax upon the capital, if any there is, thus employed. The effects of this practice upon the legitimate business of banking under the law of this State, is to discourage, and frequently cripple those institutions which were established in good faith under it. For while the banker, under our law, is required to amply secure every dollar issued—redeem those issues, on demand, in coin, and pay a State-tax upon his whole capital he is frequently compelled, in self-defence, to place foreign insecured issues, to a certain extent, upon an equality with his own—thereby giving countenance and credit to a currency, having its origin in parts too far removed to insure safety, and liable, sooner or later, to become worthless to the holder.

Viewing this matter in the light I do, I can arrive at no other conclusion, than that justice to the State, as well as the banking institutions established under its laws, and the safety of the bill holder, demand of you, either to provide for prohibiting the circulation of all foreign bank notes, not secured in a manner equal to our own; or, at least, require as far as practicable, such bankers as may issue foreign notes, to treat them in all respects as their own currency, issued in conformity to our banking law, and render it subject to the same requirements in every important particular.

A report, in detail, of the condition and wants of the State Prison, is submitted by the Commissioner thereof, to which I invite your early and careful attention. During the year 1853, Henry Brown, then Commissioner, contracted with Andrew Proudfit, to erect the stone work of the south wing of the permanent Prison building. Subsequently, the present Commissioner made other contracts, for the remaining portions of the work, and material necessary for the completion of the same. The whole structure is now very nearly finished, and it is intended to place the convicts within it, during the present month. This building is of the most permanent and substantial character, being fire proof, 206 by 50 feet four stories high, and containing two hundred and eighty-eight cells, and it is to be hoped, will be sufficient for the purposes intended, for many years to come.

As a matter of just convenience to the officers in charge, and for the purpose of ensuring against escapes, the main building need be erected, as soon as the means for that purpose, without embarrassing the treasury, can be appropriated.—While convict labor has contributed much toward the erection of the building, still there is yet, over and above all former appropriations made for that object, a large sum due to contractors—beside considerable balances for the maintenance and management of the prison, which it will be your duty to examine into and provide for. Provision was made at the last session of the legislature for rewarding convicts for overwork. While this principle may be just and worthy in its tendencies, I regard the practice of paying the convicts themselves any portion of such earnings until after their discharge, as liable to work great evils, by being improperly used, as they not unfrequently are, and in a manner affecting the prison discipline, and the security of prisoners. If such earnings can be confined to the support of the families of the convicts, where they may have them, during their imprisonment, and in cases where they have no families the money be retained until discharge of the convict, the main objections to the practice of rewarding them for their labor is, in my mind, overcome.

The question whether convict labor can be profitably employed, without working a serious injury to such of our citizens as are engaged in the mechanical or manufacturing pursuits, has often been seriously discussed, and it is still doubtful what may be the duty of the State in the premises. Now that comparatively little labor will for some years to come, be required of the convicts, in the erection of prison buildings, and entertaining grave doubts, both to the policy and propriety of the State engaging in manufacturing articles for sale, by convict labor, I submit to your consideration, the propriety of authorizing the letting, to the highest bidder, for a term of years, such of said labor, to be used within the prison enclosure, as cannot be profitably employed by the State, in the erection of buildings—requiring the contractor to furnish his own tools and shops for such labor; thus throwing the whole matter open to competition, and relieving the state of great responsibility and perplexity connected with the same.

In my first message to the Legislature, I urged upon their attention, the propriety of adopting the preliminary measure to secure the erection of an Institution for the benefit of the insane.—An act, was passed at that session, authorizing the Governor to appoint three commissioners and a superintendent, who were clothed by law with power to purchase suitable grounds and to erect the necessary buildings. In April last the appointments contemplated by that act were made, since which time, appropriate grounds for that purpose near the village of Madison have been purchased and conveyed to the state, and contracts entered into for the erection of buildings, upon the most modern and approved plans. The main building and two wings are, by the terms of the contract, to be in readiness for the reception of patients, by the first day of January 1856. The appropriation for this object being small compared with the magnitude of the work, was evidently intended simply to secure the commencement of the undertaking. As to the propriety of prosecuting with energy, such an undertaking so praiseworthy and just in its character, I need not here urge upon you, further than to say, that more aid is indispensable, and will, I trust, be found at your hands. For information of details, concerning the transactions the Commissioners and Superintendent, and the condition and wants of the Institution, I refer you to the reports of the officers in charge.

The prosperous condition of the institutions established for the education of the blind and deaf and dumb, as is more fully shown by the reports of the respective Boards of Trustees, is well worthy of notice. Indications of correct and judicious management by those in charge of them are apparent. The provision heretofore made by the Legislature for the establishment of these charitable institutions, must be regarded as having been bestowed upon objects worthy and humane in their character, and as meeting only the demands of simple justice to the unfortunate of those classes. And while I hold it to be our duty, to make ample provision for those objects and in no event to fail to provide annually for their free support, I cannot in view of the liberal provision before made for them, and the insufficient provision made for other institutions similar in their character, consistently urge at this time your making appropriations for the purpose of materially enlarging their buildings during the present year to any more than the completion of such portions as are already commenced. In support of this, I refer to the reports which exhibit the number of pupils in each, as being less than equal to the accommodations provided, and from the best information I have been enabled to obtain, will be found ample for the present year. The propriety of providing by law, however, at the present session, for the ultimate extension and completion of the buildings, according to the plans adopted, in my judgment, is unquestionable; and to that end, such provision at the present session as will accomplish that object, within the necessary space of time, I am cheerfully disposed to favor. Means for the erection of shops, necessary for the use of the Deaf and Dumb, and the support of each of these institutions during the present year, are clearly objects claiming immediate provision, to the extent of which I refer to the respective reports.

The Geological survey of the State has been prosecuted the past year with great energy, and most encouraging results. The able report of Professor Percival, our State Geologist, will doubtless elicit attention, both at home and abroad; and I trust will receive at your hands an early examination; as its importance will justify the publication of a larger edition than than is usual of this report, so immediately connected with the great mining interest of the state. The surveys thus far made have been chiefly confined to the lead districts, and that having now been nearly completed; it is intended, during the coming season, to direct the examination of the country north of the Wisconsin river to our copper mines, bordering on Lake Superior. There may, in my judgment, be prosecuted in connection with the Geological survey, a Zoological examination, for a comparatively trifling expense, resulting in such discoveries and collections, connected with the natural history of the state, as in future will be viewed as valuable and interesting, and to secure the full benefit of which, early action is necessary.

The military spirit exhibited by a portion of our fellow-citizens is both commendable and worthy of further encouragement than is now provided by law. In order to render the Militia of practical utility, the proper steps should be taken by the Legislature to encourage the formation of uniformed companies, which seems to be the best, if not the only practicable means, at present, of bringing into use the quota of arms which our state is entitled to draw annually from the United States Government. Imperfect as is the system for obtaining an enumeration of the militia of the state, yet the partial reports of the assessors of the several towns show an increase which entitles the state, for the present year, to receive equal to about 400 stand of arms, valued at nearly $5,000 00. It is recommended by numerous military officers that a law similar in its character to the one now existing in the state of New York, be enacted. An examination of that law has induced me to recommend it to your consideration, as worthy of imitation; and calculated to inspire a proper military spirit. The report of the Adjutant General, to which I invite your attention, contains explicit information, and many valuable suggestions, concerning the present condition of the militia.

The Attorney General, although not required by law to submit an annual report, has seen proper, in view of some matters of importance to the State connected with his department, and of which it is proper for the Legislature to be informed, to transmit, through me, a brief report, which I recommend you to consider.

Emigration to our State is annually on the increase, furnishing further evidence of the adaptation of our soil and climate to the habits and wants of the emigrant, and of the high estimate abroad placed upon our resources. The Commissioner of Emigration, in his annual report, calculates the number of emigrants from foreign countries who have found their homes in Wisconsin, to be much greater during the past than any former year. A large portion of this, I am induced to believe, resulted from the continuance of an agency in New York, and through the sub-agency, established at Quebec, under it. My former expressed views, in regard to the propriety of such agencies, I have had, as yet, no reason to change.

The Secretary of State and Governor were, by an act of the last Legislature, constituted commissioners, to procure to be published, in two volumes, so much of the documentary history as at that time had been prepared for publication.—Under this authority, a contract was made for 5,000 copies of each volume, which are now ready for delivery. The work has been prosecuted under the supervision of the author, Wm. R. Smith, Esq., whose report of its doings in the premises is herewith submitted. This valuable and interesting publication, being the property of the State, it is proper that a provision be made for an early distribution of a portion thereof. I would therefore suggest the propriety of donating one copy to each of our common school libraries; to the libraries of each institution of learning throughout the State, and also to each of the several State Libraries of the Union, and the various departments of the General Government—reserving a large number of copies for future demand, and the purpose of exchange for other valuable works, to be deposited in just proportions, in the libraries of the State and the State Historical Society.

The annual report required of the Executive Committee of the State Historical society, is herewith transmitted and gives evidence of strict fidelity on their part to the trust committed to them. Through the perseverance of its managers, this society has grown into an importance which reflects much credit upon them and meriting in my judgment, greater encouragement at your hands than has heretofore been bestowed by the Legislature. The increasing labors devolving upon the corresponding Secretary to perform, have reached that magnitude, that I regard it proper in view of the interest the State should manifest in the promotion of the objects of this society, that a reasonable salary should be provided, and paid by the State to that officer.

It affords me great pleasure to announce the fact, that the Fox and Wisconsin Improvement Company have pressed the work undertaken by them, with a degree of energy, which must prove most satisfactory to all interested in its completion. The company have been fortunate in the selection of their officers, and in obtaining abundant means to forward the enterprise, on a scale of far greater magnitude, than was at first contemplated; being intended to pass boats of a draft of at least four feet and a half of water.

The expenditures of the Company, as reported by its President Otto Tank Esq., since the transfer by the State, and up to the 30th of December last, are as follows, viz:

Grand Kaukalin	$42,381 04
Little Chute	60,1[illegible] 57
Cedar Rapids	8,667 50
Grand Chute	47,322 38
Menasha	6,555 3[illegible]
Locks, Warehouses, boats and barges	16,948 05
* * *	
	$183,100 53

The sum estimated as necessary to complete the work, is the comparatively small one of $32 388 84. The Company have paid of the improvement liabilities, the amount of $133,490 . . —thereby giving an earnest of their design to remove all the pending indebtedness, within the time required by the act of Incorporation. The difficulties which have been overcome, in the progress of this work, were exceedingly formidable, but the benefits to be derived from it, when finished, by a large portion of the State, are on a scale of far greater magnitude. As one of the few great connecting lines of communication, between the Lakes and the Mississippi, it assumes almost a national importance; and running as it does through the entire breadth of our State, it becomes of a value to those along the line, that no other means of transportation now used could replace. Rapid settlements, and a great increase of wealth, must necessarily follow its completion; and a large portion of our State now but thinly inhabited, or a wilderness, will receive an impulse which at no remote period, will render it a rival in all of the elements of material prosperity, to those sections already of importance, from their resources and population.

A glance at the map will show the favorable geographical position of the work, which, together with the internal improvements now in progress in Canada, confer an importance upon it which the originators of the project, in all probability, never foresaw. From the terminus of the Improvement at Green Bay, to Toronto on Lake Ontario, via. the railroad, terminating in Georgian Bay, and which is but 70 miles in length, it is no greater distance, than from that point in our State to Detroit; and lessens the number of miles, usually travelled to reach the Eastern ports, by several hundreds. This is a matter of no small consequence, to the Northern and North Western portions of our State, and demonstrates the fact that this, when established, must be the line over which a large proportion of the vast carrying trade of those sections, and much of the country lying west of the Mississippi, will be most conveniently and cheaply done. The portion of country, contiguous to the Lake shore, must also share in the advantages thus conferred, by the opening of a nearer and cheaper avenue of communication with the commercial centers at the East.

The state at large is not without a deep interest in the completion of this important improvement within it. The number of great water powers which it will create along its extent, the manufacturing villages which it will cause to spring up in consequence, and the increase of taxable property and commercial activity, are considerations important to the welfare of our whole people. We can now plainly discover unaided by speculative statesmen, the benefits and disadvantages of the policy of granting public lands, in the states where they may lie, to be appropriated to the construction of works of this character; and our experience will go far towards convincing others, that the benefits have largely the preponderance. Undertakings, of a magnitude which would repel private enterprize unless thus aided, are encouraged and assisted to completion, and where, without such aid, if attempted, they would languish and die, the whole country, including the General Government, by the more rapid sales of its lands, are benefited to an extent not easily calculated.

Large additions to the State Library, through means provided by the last Legislature, have been made during the past year. A detailed report, concerning the same, will be laid before you at an early day. The expenditure of a moderate sum only will be required annually in the purchase of late publications, to render it both an ornament to our State, and sufficient for the objects which induced its establishment.

The U. S. standard weights and measures, to which this State was entitled, on her admittance into the Union, have recently been received and put in order for use, in a suitable fire proof building, erected for that purpose, upon the public grounds, in pursuance of plans furnished by the U. S. Government.

In order that those costly standards may be rendered as useful, as it was designed by Congress they should be, I deem it important that the law relating to procuring county standards, should be so amended as to require the State Treasurer, who, by law has the charge of the Government standards, to procure the manufacture from suitable material, for the use of each county, of complete and uniform standards, to be by him sealed and delivered to the proper county office; the cost of which, to be added to the amount of State tax that each county shall respectively be liable to pay, for the year the same shall be delivered. This I regard as the best means of insuring the proper uniformity in county standards, which it is so necessary to secure.

In my former message to the Legislature, I urged the propriety of making provision for the sale of the swamp and overflowed lands granted to this state by act of Congress, approved Sept. 28, 1850. The Legislature at that session failing in the attempt to provide for such sale, I now renew the subject, and recommend definite action.

There are numerous considerations which should weigh, in urging an early disposition and reclamation of these lands. The disposal of them would tend greatly to improve the health of localities contiguous to them—would hasten the settlement of the country, and make productive taxable property of much of that which in many instances is at present useless, and no law for their protection, or against taking the timber from them, it is believed, could be rendered sufficiently efficacious to prevent their being thus despoiled of what, in many instances, constitutes their chief value. Besides, even admitting the possibility of enforcing such a law, it could not be done without great perplexity and expense to the state.

Since the adjournment of the last Legislature, I have endeavored to adopt measures for the purpose, not only of ascertaining the facts, relative to the quantity and value of these lands, but also to secure the fee simple title thereto to the State.

Perfected and approved lists of such of said lands as remain unsold, within the surveyed portion of the State, and formerly subject to sale at the several U. S. Land Offices, have been procured from the Commissioner of the General Land Office, and are as follows, viz:

In the Milwaukee Land District.		53,636 93-100 acres.
do Mineral Point	do	13,515 40-100 do
do La Crosse	do	217,293 73-100 do
do Willow River	do	119,916 45-100 do
do Menasha	do	717,623 62-100 do
do Stevens Point	do	521,670 53-100 do

Making a total of one million six hundred and fifty-one thousand sixty-two 10-100 acres.

Official statements from the General Land Office, of the sales made by the government of such granted lands, since the passage of the act appropriating the same, and for which the State is clearly entitled to receive either money or other lands, is promised and confidently believed will be forthcoming: which, it is thought, will increase the total quantity within the surveyed portions of the State to nearly two millions of acres—so that, upon a moderate estimate for that part of the overflowed lands in the surveyed districts (not included in either of the lists referred to), and the swamp and overflowed lands yet to be surveyed, in the northern portions of the State, it is reasonable to suppose that the total quantity which will ultimately enure to the State from this grant will equal three millions of acres. For the lands embraced in the perfected lists referred to, such assurances have been received from the Commissioner as to render it morally certain that patents for the same will be executed to the State at an early day.

Many of these lands are valuable, and should there be a judicious provision made for their sale, a large sum of money may be speedily realized by the state, after complying with the terms of the grant.

Admitting the propriety of thus disposing of these lands, I can see no constitutional objection to appropriating the surplus proceeds, after their application to the extent required by the act granting them, to such purposes as the Legislature may deem proper and, as a large sum has yet to be expended, in the erection of public buildings—such as the completion of the Penitentiary, the construction of the buildings for the various charitable institutions, and at no distant day of a new Capitol edifice, or the enlargement of the present—which, even now, owing to the insufficiency of room for offices, seems to be demanded.

From the examination I have given this subject, I am clear in the opinion that, from the sales of these lands, we may reimburse the treasury for all past outlays, on account of public buildings of every character, and further erect all such buildings as the state will require for many years to come. The constitutional limit for state indebtedness being small, and that limit having been reached during the years 1852 and 1853, I am strongly impressed with the belief that in the sale of these lands is presented the only means at present within our command, by which to provide for the objects named without resorting to direct taxation, the burthens of which, for the ordinary expenses of our state, while yet in its infancy, will be found fully equal to the ability to meet.

I therefore recommend that in the event of provision being made for the sale of the lands, that the proceeds accruing to the state be set apart for the aforesaid objects.

Section three, article four, of the constitution requires the Legislature to provide by law for an enumeration of the inhabitants of the state in the year 1855. You will undoubtedly comply with this provision of that instrument at the present session. In addition to the enumeration required, I recommend that provision be made for collecting, at the same time, as full and complete information concerning the manufactures, products, and property of the state as may appear practicable. The information thus derived will unquestionably be found interesting, valuable, and creditable to our state.

It affords matter for congratulation, that the different Railroad enterprises of our State, have, to a certain extent, recovered from the temporary depression, brought about by well known causes. It is now a conceded fact, that these important agents in the rapid settlement of our country, and the development of its resources, afford in this State, secure means for the profitable investment of capital; and such is now our condition, that it is no longer indispensible for us to rely entirely upon means furnished from older and more wealthy communities, for their construction. It has, until a comparatively recent date, been absolutely necessary to induce the aid of foreign capital, in order to take the first steps in these enterprises, and no better evidence could be given of the rapid and healthy growth of the State, than that of our greatly increased ability to forward such means of communication; and the certainty of their yielding a profitable return, for the investments which may be made in them. Aside from the generous reward obtained by every branch of industry and enterprise, and from the increase produced by superabundant harvests, greatly beyond the demand for home consumption though added to by the wants of an unparalleled emigration has, of itself, been of a character calculated to augment materially, the available capital of the State.

Those laws of trade, which gradually and steadily regulate the supply in accordance with the demand, have insensibly, but with certainty, furnish our citizens with a great proportion of such means, as their necessities required, and their situation enabled them to secure and render profitable. Those legitimate works of internal improvement, the construction of which the onward march of our State made necessary, have felt the effects of the general impulse. Such as are already in progress, are being urged forward with all means of the companies having them in charge; and it is now confidently believed, that their completion, within a reasonable time, is placed beyond the possibility of a doubt. It should be care of the Legislature to foster, by liberal enactments, these important interests, and protect them by all such laws as are calculated to secure their rapid construction, and the permanency of all those investments, which may be devoted to their advancement or continuance. As one of the means necessary to effect this end I would strongly recommend the passage of such laws as would tend to prevent the commission of any fraud, by the over issue of stock or otherwise by the officers of incorporated companies, which would affect the interests of those entrusting them with the management of their affairs, or that of the community at large.

The occurrences which during the past few months have been brought to light, in several of the States, demonstrate the existing necessity of such enactments; and until there has been some action of this kind taken, the construction of our roads must necessarily be retarded by considerations which the Legislature can do much toward removing, by the imposition of severe penalties for offences of the character referred to, and such other checks as they, in their wisdom, may see fit to establish. Such a course will have a tendency to increase greatly the value of our securities abroad, by giving capitalists confidence in their permanent value. This subject I consider to be one of the highest importance, and I trust your earnest attention may be directed to the establishment of some law which will have the effect desired. The opinions expressed by me in my former message, relative to the importance of the speedy completion of our railroads, and the means which seemed to me proper to be used for their construction, I still adhere to, and would reiterate, did not a simple reference to that document obviate the necessity of so doing. In this connection, I deem it proper to recommend that the Legislature pass such a law as will enable Rail and Plank Road Companies to secure the right of way over all lands owned by the State, or held in trust for any fund.

I took occasion to urge upon the Legislature the propriety of memorializing Congress upon the subject of the Improvement of our Rivers and Harbors through the assistance of the General Government. Since that time Congress has acted upon the matter and passed an act making more liberal appropriations than had previously been set apart for these objects. From this bill, the President saw fit to withhold his sanction, and it is to be regretted that he deemed it his duty to take such a course, in view of the deep concernment we have in the making of adequate appropriations by Congress, for these objects.—Such have been demanded by the West for many years as a right to which they were entitled, as fully as that portion of our common country situated upon or near the sea board; and no satisfactory reason has yet been adduced why we should not have the full benefit of a system which has proved so highly advantageous to others.—Thus far, we can with propriety say that all the benefits reaped through the assistance of the General Government, have scarcely been worth the labor it has cost to obtain them. Considering, as I do, that the right so long claimed by us is one to which we are entitled by the clearest principles of justice and national expediency, I feel it to be proper to reiterate all of the opinions I have formerly expressed upon the subject, and to urge upon the Legislature the memorializing of Congress, to either make these improvements by appropriations from the Federal Treasury, or remove the obstacles in the way of our making them ourselves.

The subject of the revision of our laws is one of consequence sufficient, in my judgment, to authorize the Legislature, at the present session, to take those preliminary steps necessary to the attainment of this object. So great is the mass of our laws now, and so crude, conflicting and uncertain in their character, that it is very difficult for those even whose profession gives them the best opportunities of knowing what the existing laws are, to distinguish the binding enactment from the repealed or altered law, and this evil, in connection with the manner of publishing our Statutes, leaves the people of our State nearly as much in the dark as to the action of their Legislatures as if they resided in some other. The certainty of a law is one of the chief benefits to be derived from it, and it is not clear but that it would be better for community to suffer the existence of bad laws than to live under a system which is subjected to continual alterations. Our excessive legislation has a tendency to produce an entirely different result from the one intended, and is, perhaps, as much calculated to create evils as to prevent or redress them. I trust that your attention will be devoted to this matter, and will result in the establishment of a system of laws which can be understood, and a reform in the manner of their publication.

The proposition submitted by the Legislature to the people, at the last general election, to so amend the Constitution as to provide for biennial sessions of the legislature, was negatived by a decided vote. That this instrument is, in some particulars, imperfect, and might, by alteration, be better adapted to our condition, I am thoroughly convinced; but the policy of adopting any amendment of it, until a thorough revision is had by a convention, may well be questioned.—Propositions to amend either the constitution or laws, should be thoroughly considered, and the consequences attendant canvassed with great care and mature deliberation.

The law fixing the time for the annual meeting of the Legislature on the second Wednesday of January, should in my judgment, be so amended as to allow the various officers who are required to report annually through the Governor the Legislature, more time after the close of the fiscal year to prepare their reports. The fiscal year, as is wisely provided, closes on the 31st day of December. For those departments connected with the financial affairs of the State, an insufficient space of time is now allowed after the closing of their accounts, on the last day of the year, to prepare in due form the reports required of them by law. In order, therefore, to provide a remedy for the evil stated, and to afford the Governor a reasonable time for obtaining such information from the reports as is proper for him to communicate to the Legislature at the opening of the session, as well as for numerous other reasons which might, with propriety, be urged, I recommend that provision be made for the annual session hereafter to commence as late as the third or fourth Wednesday in January, instead of the second, as is now provided.

We, in common with our sister states, have in general great cause for rejoicing, at the results of the year which has just closed. Although the pestilence has left in its train, many sorrowing hearts and desolated homes, yet aside from this, the nation has reason to be thankful.—Throughout our borders, all the arts of peace have been crowned by those just rewards, the hope of which has called them into existence.—Plenty has richly repaid industry, and while the Old World is pouring out its blood and treasure upon fields of battle, we have been permitted to enjoy the fruits of our labors in peace. Civil and Religious liberty are ours by inheritance, and we have to the fullest extent, realized the blessings attendant upon them—supported as they have been, by no force beyond that of an enlightened public opinion. Like the return of the seasons, and the operation of all natural laws, our political system has continued its working, until we have come to regard this wonderful result of the wisdom of our forefathers, as a matter of course, and receive its benefits as we do the daily gifts of Providence.

The perpetuity of this system can only be maintained, however, by a strict obedience to the laws, for the faithful execution of which I shall be found ever ready, should the emergency arise.

So far as your labors may be confined to the legitimate objects for which you are convened, and are calculated to promote the best interests of the whole people—if not in violation of that instrument which we alike are sworn to support—you may rely with confidence upon my ready co-operation.

WM. A. BARSTOW.

$250 REWARD!

WHEREAS, It is believed that the several fires which occurred on the nights of Tuesday and Wednesday of the present week, which have been so destructive of property, were the work of incendiaries: Now, therefore, by virtue of the Ordinance in such cases made and provided, I, BYRON KILBOURN, Mayor of the City of Milwaukee, do hereby offer a reward of TWO HUNDRED AND FIFTY DOLLARS, to be paid by said city to any person or persons who shall give such information as will lead to the arrest and conviction of any person concerned in setting or causing either of said fires, whereby any of the several buildings were destroyed on either of said nights. If more than one person was acting in causing said fires, said reward is to be paid to the full amount for *each one* who may be convicted thereof, to the person or persons furnishing the information leading to such arrest and conviction.

And furthermore, I hereby in like manner offer a reward of TWO HUNDRED DOLLARS to any person or persons who will give such information as will lead to the arrest and conviction of any person who has set fire to any house or barn within this city during the past year of 1854, whereby such house or barn, or other buildings have been destroyed or seriously damaged.

In testimony whereof, I have hereunto set my hand officially, this 5th day of January, 1855.

PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by GEORGE HEWS, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fulness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and also greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. GOTTSCHALK, to Mr. Hews, Agent at New York:

New York, Dec. 5, 1853.

MR. N. J. CURTISS:—

Dear Sir: Having had the pleasure of performing upon two Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scales.
Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, WILLIAM MASON:

MR. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.
WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

☞ Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

GOVERNOR'S MESSAGE

Fellow-Citizens of the Senate and Assembly:

You, having assembled to discharge the high and responsible trust confided by the Constitution to the representatives of the people, it becomes my duty to lay before you such information concerning the condition of the State as I may possess and to recommend to your consideration and action such matters as, in my judgment, the wants and interests of the people demand at your hands. But before proceeding to the performance of that duty, I regard it as not only proper, but even obligatory upon me to advert to the results of the year which has just closed, and to indulge in congratulation to an extent never before warrantable in the history of Wisconsin. With the exception of the epidemic which has prevailed so generally throughout our country, it may be truly said, that the past year has been one of more than ordinary good health, even in this State—so remarkable for its salubrity. Prosperity has crowned enterprise and industry, in whatever channel exerted, and the admission is compelled from all, both at home and abroad, who are acquainted with its resources, that no State presents greater inducements to the various industrial classes than our own. It has been ascertained that the am't of our exports during the past year (including lumber and mineral) has exceeded the sum of thirteen millions of dollars.

While a great commercial revulsion seems to be visiting many sections of the Union, crippling their resources and impairing their prosperity, no State shares less in its effects, or is better prepared for its consequences. We have but to pursue that onward, though cautious policy, which has characterized our course, thus far in order to ensure the occupancy of that desirable position among the confederated States, which an energetic and intelligent population—favored by our advantages of soil and climate, joined to a fortunate commercial position—are so well calculated to command. Let us faithfully endeavor to perpetuate our prosperity and happiness—relying with confidence upon the Supreme Ruler for strength and wisdom.

While the wants and varied interests of a young and growing State like ours, necessarily call for much legislation, there is not at this time an apparent amount of legislative labor necessary to be performed sufficient to justify a protracted session. As over legislation is too frequently indulged in—resulting in onerous taxes and the enactment of conflicting and unwholesome laws. Still, while I believe it to be my duty to urge upon you the propriety of a brief session, and a rigid observance of economy in the expenditure of the public moneys, I am far from meaning to be understood as wishing to curtail either, to the prejudice of any interest which it may be your duty to provide for or protect.

Among the important matters to which I wish particularly to invite your attention, and on which, in order to secure a proper and timely result, it will become your duty to act at an early day, is that of a careful examination of Official Reports, and the real condition of the several departments of the State Government. These reports will immediately be laid before you, and they will be found to be full and explicit. Your constituents have a right to claim at your hands, such information as you may be able to obtain; and it is your duty to investigate closely into the doings of those entrusted with their interests. The conduct of all public servants, under our form of government and laws, is, and should be, subject to inspection; and, upon a thorough and careful examination, it is but simple justice to all parties concerned that the people should know and understand the result. This duty of the Legislature, though frequently demanded of them by the officers themselves, has, I regret to say, been too long neglected and shamefully evaded.

The Reports of the Secretary of State and State Treasurer, will exhibit to you in detail, a full statement of the receipts and disbursements of the Treasury Department, during the fiscal year, closing on the 31st day of December, from which I am enabled to lay before you such information concerning the same, as I deem important for the purpose of this communication. It appears that the entire amount paid into the Treasury during the year 1854, on account of the various funds—

The Secretary of State, in his report, estimates the amount probably necessary to be drawn from the Treasury, on account of the General Fund during the present year, to meet present and accruing liabilities, at	$253,059,52

In this estimate, it is proper to state that the sum of $111,633.?2 is included, as necessary to meet arrearages, arising from the erection of Penitentiary buildings and support of convicts during the past and present year, also the sum necessary to be applied toward the erection of a Lunatic Asylum and the completion of a portion of the buildings designed, and the support of the Institutions established for the education of the Blind, and Deaf and Dumb.

To meet the foregoing liabilities, the resources are stated as follows, viz:

State Tax as levied and equalized under the act of 1854		$225,000,00
Bank Tax,	(estimated)	30,000,00
Rail and Plank Road Tax,	(do)	9,000,00
Miscellaneous Receipts,	(do)	24,829,91
Total,		$288,829,91

Among the matters of interest presented by this report, is a brief review of the public expenditures since the admission of Wisconsin into the Union—showing the yearly appropriations therefor, from 1848 to 1854, inclusive—amounting, in the aggregate, to the sum of $830,244 30, of which $94,071.51 was in the years 1848-9; $74,671 38 in 1850; $112,120 80 in 1851; $123,474.06 in 1852; $162,916.5? in 1853, and $264,602.07 in 1854. Of the last named sum, appearing under the head of expenses for 1854, $63,696.03 was for the expenses of other years, so that the actual expenses for the objects of 1854 were $200,906.04, inclusive of such items provided for by permanent provisions—thus only exhibiting that annual increase in public expenses, consequent upon the organization and progress of a new state, and growing in a great measure out of the necessary expenditure in providing Penitentiary and other public buildings, and the establishment of charitable institutions. While from the foregoing it would appear that the expenses for the year 1854 were between thirty and forty thousand dollars more than for any previous year, yet the aggregate for general purposes for that year was evidently some forty thousand dollars less than for 1853. This is accounted for by the fact that upwards of $80,000 more than in any previous year for such purpose was appropriated for the erection of a State Prison, Lunatic, Deaf and Dumb, and Blind Asylums—including the moderate appropriations made for the benefit of the State Agricultural and Historical societies; all of which did then, as they do now, appear to be just and worthy objects of legislative favor; and some of which at least must continue to be objects of that character, and destined to create no small portion of the public expenses, unless other provisions than at present exist, are made for their defrayal.

With the suggestions of the Secretary, in relation to existing laws, on the subjects of the registration of marriages, births and deaths; foreign insurance agencies, the judiciary fund; the fixing of a penalty in the event of a failure of Town Assessors to make return, and the publication of the election laws, I most fully concur.—His exhibit, however, of the expense heretofore incurred by the Legislature, for newspapers and postage is worthy of more than a passing notice at this time, and I can but impress you with the importance of a reform in respect to these matters. It appears that the expense for those two items alone has for several years, averaged nearly ten thousand dollars annually: a very large proportion of which, I have ever regarded as unnecessary and unwarrantable in its character, and should be reduced and confined to such sum as the legitimate object of legislation may properly demand.

The report of the Board of Commissioners of School and University Lands, has been elaborately prepared, and comprises much of interest, connected with the responsible trust committed to their charge.

It appears that the aggregate principal of the School fund, amounted on the first day of January, to the sum of $1,670,258 77; being an increase, during the past year of $528,454|49, derived chiefly from the sale of lands. The gross amount of interest, received since the last apportionment made to common schools, including the sum payable prior to the tenth day of March next, (that being the time fixed by law for the annual distribution) is $142,434 29; which, according to the estimate of the State Superintendent of Schools, is equal to 93 cents for each scholar—an increase of 21 cents over the previous year.

The claim of the State to the quantity unselected of the 500,000 acre grant, amounting to about 125,000 acres, belonging to the school fund, and heretofore denied by the General Government, upon the ground that there was an arrearage due the Government from the State, arising from the connection of the Territory with the Rock River Canal, has, during the past year, been amicably adjusted, upon terms entirely favorable to the State; and the lands thereby accruing have been chiefly selected. It seems highly probable that a like favorable adjustment will be had, of our claim to the five per centum of the net proceeds, arising from the sales of Government lands, to which the State is entitled; amounting at this time, it is supposed, to about $60,000, and withheld by the Government, for the same cause; as will more fully appear from a statement of the facts of the case, and the argument of the matter, which will be laid before you.

Considerable additions have been made to this fund during the past year, arising from fines collected by agents appointed for that purpose, under an act authorizing the same; a large proportion of which, it is believed, never would have reached the Treasury, except through the operation of some similar enactment. A defect in the law, however, it is said, has in some instances been made an excuse for not paying; to the correction of which, your attention is invited. The rapid increase of this fund, exceeding so greatly the early anticipations formed in regard to it, affords cheering evidence of its ultimate sufficiency, for the purpose intended. To know that the means of obtaining a common school education are within the reach of all, is a source of just pride and congratulation, and should prompt us to protect them by the erection of such safeguards as the interests and well-being of posterity demand. Under an act of the Legislature of 1854, requiring the commissioners and Governor to revise the mode of keeping the school and university accounts and records, important improvements have been made, and the work contemplated by said act, is rapidly progressing. In order, however, to ensure the continuance of this, a more permanent provision for the expenses, than at present exists, should be made therefore at the present session; and I can conceive of no just cause why such expenses should not be paid from the fund, for which they are incurred.

As the law now is, in cases where the interest due upon School and University Lands purchased has not been promptly paid on the day it became due, there have been a number of instances where the lands thus forfeited have been entered by others; and upon their making the payments required, the original purchasers have been deprived of all their rights in the property. This, in many instances, is calculated to work extreme hardship to those who, through ignorance or accident, fail to pay the interest due upon the day fixed; and some provision should be made, either for extending the time after advertisement, or giving the parties concerned such reasonable equity of redemption as will enable them to return their lands, if they wish so to do. In this connection and with a view of subserving the best interest of the State, without prejudice to the fund, I submit to you the propriety of providing a reasonable limit to the quantity of School and University land which any one individual may hereafter purchase; and, as far as practicable, insure the occupation of the same to actual settlers.

This I deem to be the best policy to be pursued on the part of the State, and by the encouragement thus rendered to a class of citizens whose principal resources consist in their energy and industry, the fund may be advantageous to as great a degree as under the present system and the State at large will be benefited to an extent, which the practice of monopolizing large tracts, by a few individuals, has a tendency to prevent. The only class whose interests such action will have a detrimental effect upon, is one composed of speculators merely, and who are not the tillers of the soil. An instance of such attempted monopoly occurred during the year 1853 when a few parties combined, and bought in connection, upwards of 130,000 acres; and also during the last year, a single individual purchaser appears upon the books of the department at the proprietor of nearly 50,000 acres; and in sundry other instances, similar operations, on a similar scale, have occurred. If without detracting from the proper fund, and the income arising therefrom, this growing evil can be prevented, I deem it to be your duty to provide the same by such enactments as are best calculated to ensure the desired result.

I recommend to your especial notice the very full and clear report of the State Superintendent, as exhibiting ample evidence that our common school system was well devised, and is now thoroughly organized—having, by its practical operations, demonstrated that the hopes early formed in regard to it were not extravagant. The cause of education in this State has manifested a degree of prosperity that furnishes us with good reason for rejoicing; and the degree of interest not only exhibited, but felt by all in its advancement and permanent establishment, affords strong testimony of its continuance and value. The various institutions of learning established in different parts of the State, and not assisted from any fund over which it has the charge, are all as flourishing and prosperous as we could, at this early day, have any reason to hope they might be. We have cause to be proud of the fact that so many of them, conducted as they are by able and learned men, have already been reared in our cities and villages, and are spreading widely their beneficial influence. The second dormitory building of the State University is now nearly completed, and will be ready for the reception of students by the first day of June. It affords me pleasure to state that this valuable institution continues to increase its influence and usefulness, and is steadily progressing in all its departments. The report of the Board of Regents, which has not yet been received, but which will in a short time be laid before you, will exhibit particularly all matters of interest connected with the University, and will doubtless merit your attention. The gross amount of the University fund, on the first day of January, amounted to $161,146.61. The amount of income applicable to the support of this institution for the present year, including the accruing interest for 1855, is $12,405.45

The report of the Bank Comptroller enables me to lay before you reliable information, concerning the operations of the various banks, under the General Banking law of the State. It appears that the number of Banks established, and transacting business, under the law is *twenty four*, with an aggregate capital of $1,450,000 00. The amount of securities, consisting entirely of State Stocks deposited with the Comptroller, is $1,033,000; upon which the issue of circulating notes amounted on the first day of the present year, to $937,593—yielding a revenue to the State, by tax, for the year 1854, of $18,165 62.

It is a gratifying fact, and one upon which we may congratulate ourselves, that thus far the practical working of our banking system, gives evidence of its superiority over many, if not over all, those adopted by other States. Notwithstanding numerous failures of banking institutions in other States, and the money panic, which of late has so generally prevailed, but one of the institutions, organized under the general law of this State, is reported to have failed to redeem promptly its notes. As an evidence of great determination on the part of bankers, to merit confidence, in nearly every instance, upon the request of the Comptroller, additional securities have been deposited to an amount corresponding with the recent decline in the market value of stocks, or by the return to the Comptroller of an amount of circulating notes equal to such depreciation. The promptness evinced by the banks, in thus responding, and the sound discretion exercised in the management of a department so important to the credit and business interests of the State, cannot but command your approbation.

Our banking law, although generally regarded as being as well adapted to secure the interests of the bill holder, as any which could well be framed, yet it is not void of defects, which are pointed out in the report of the Comptroller, and will, I trust, receive your attentive consideration. And in that connection it may be well to consider whether there is not a class of securities within our own State, of the nature of bonds issued by some of the principal cities, that may under proper restrictions be received as the basis of banking.

The present unsettled condition of monetary affairs, which is pervading the country so generally, and more recently brought nearer home to us, with increased deleterious effects, in consequence of numerous Bank failures in neighboring States, induces me to invite you to the examination of the subject, and urge upon you the necessity of such enactments as will, as far as practicable, provide a remedy, and protect the people against the imposition and fraud, so frequently practised by the introduction and circulation of doubtful currency, brought to our State and forced into very general use—not unfrequently through the aid of local bankers, who neither hold themselves responsible for its redemption, or make it a source of revenue to the State by the payment of a tax upon the capital, if any there is, thus employed. The effects of this practice upon the legitimate business of banking under the law of this State, is to discourage, and frequently cripple those institutions which were established in good faith under it. For while the banker, under our law, is required to amply secure every dollar issued—redeem those issues, on demand, in coin, and pay a State-tax upon his whole capital he is frequently compelled, in self-defence, to place foreign insecured issues, to a certain extent, upon an equality with his own—thereby giving countenance and credit to a currency, having its origin in parts too far removed to insure safety, and liable, sooner or later, to become worthless to the holder.

Viewing this matter in the light I do, I can arrive at no other conclusion, than that justice to the State, as well as the banking institutions established under its laws, and the safety of the bill holder, demand of you, either to provide for prohibiting the circulation of all foreign bank notes, not secured in a manner equal to our own; or, at least, require as far as practicable, such bankers as may issue foreign notes, to treat them in all respects as their own currency, issued in conformity to our banking law, and render it subject to the same requirements in every important particular.

A report, in detail, of the condition and wants of the State Prison, is submitted by the Commissioner thereof, to which I invite your early and careful attention. During the year 1853, Henry Brown, then Commissioner, contracted with Andrew Proudfit, to erect the stone work of the south wing of the permanent Prison building. Subsequently, the present Commissioner made other contracts, for the remaining portions of the work, and material necessary for the completion of the same. The whole structure is now very nearly finished, and it is intended to place the convicts within it, during the present month. This building is of the most permanent and substantial character, being fire proof, 206 by 50 feet four stories high, and containing two hundred and eighty-eight cells, and it is to be hoped, will be sufficient for the purposes intended, for many years to come.

As a matter of just convenience to the officers in charge, and for the purpose of ensuring against escapes, the main building need be erected, as soon as the means for that purpose, without embarrassing the treasury, can be appropriated.—While convict labor has contributed much toward the erection of the building, still there is yet, over and above all former appropriations made for that object, a large sum due to contractors—beside considerable balances for the maintenance and management of the prison, which it will be your duty to examine into and provide for. Provision was made at the last session of the legislature for rewarding convicts for overwork. While this principle may be just and worthy in its tendencies, I regard the practice of paying the convicts themselves any portion of such earnings until after their discharge, as liable to work great evils, by being improperly used, as they not unfrequently are, and in a manner affecting the prison discipline, and the security of prisoners. If such earnings can be confined to the support of the families of the convicts, where they may have them, during their imprisonment, and in cases where they have no families the money be retained until discharge of the convict, the main objections to the practice of rewarding them for their labor is, in my mind, overcome.

The question whether convict labor can be profitably employed, without working a serious injury to such of our citizens as are engaged in the mechanical or manufacturing pursuits, has often been seriously discussed, and it is still doubtful what may be the duty of the State in the premises. Now that comparatively little labor will for some years to come, be required of the convicts, in the erection of prison buildings, and entertaining grave doubts, both to the policy and propriety of the State engaging in manufacturing articles for sale, by convict labor, I submit to your consideration, the propriety of authorizing the letting, to the highest bidder, for a term of years, such of said labor, to be used within the prison enclosure, as cannot be profitably employed by the State, in the erection of buildings—requiring the contractor to furnish his own tools and shops for such labor; thus throwing the whole matter open to competition, and relieving the state of great responsibility and perplexity connected with the same.

In my first message to the Legislature, I urged upon their attention, the propriety of adopting the preliminary measure to secure the erection of an Institution for the benefit of the insane.—An act was passed at that session, authorizing the Governor to appoint three commissioners and a superintendent, who were clothed by law with power to purchase suitable grounds and to erect the necessary buildings. In April last the appointments contemplated by that act were made, since which time, appropriate grounds for that purpose near the village of Madison have been purchased and conveyed to the state, and contracts entered into for the erection of buildings, upon the most modern and approved plans. The main building and two wings are, by the terms of the contract, to be in readiness for the reception of patients, by the first day of January 1856. The appropriation for this object being small compared with the magnitude of the work, was evidently intended simply to secure the commencement of the undertaking. As to the propriety of prosecuting with energy, such an undertaking so praiseworthy and just in its character, I need not here urge upon you, further then to say, that more aid is indispensable, and will, I trust, be found at your hands. For information of details, concerning the transactions the Commissioners and Superintendent, and the condition and wants of the Institution, I refer you to the reports of the officers in charge.

The prosperous condition of the institutions established for the education of the blind and deaf and dumb, as is more fully shown by the reports of the respective Boards of Trustees, is well worthy of notice. Indications of correct and judicious management by those in charge of them are apparent. The provision heretofore made by the Legislature for the establishment of these charitable institutions, must be regarded as having been bestowed upon objects worthy and humane in their character, and as meeting only the demands of simple justice to the unfortunate of those classes. And while I hold it to be our duty, to make ample provision for those objects and in no event to fail to provide annually for their free support, I cannot in view of the liberal provision before made for them, and the insufficient provision made for other institutions similar in their character, consistently urge at this time your making appropriations for the purpose of materially enlarging their buildings during the present year to any more than the completion of such portions as are already commenced. In support of this, I refer to the reports which exhibit the number of pupils in each, as being less than equal to the accommodations provided, and from the best information I have been enabled to obtain, will be found ample for the present year. The propriety of providing by law, however, at the present session, for the ultimate extension and completion of the buildings, according to the plans adopted, in my judgment, is unquestionable; and to that end, such provision at the present session as will accomplish that object, within the necessary space of time, I am cheerfully disposed to favor. Means for the erection of shops, necessary for the use of the Deaf and Dumb, and the support of each of these institutions during the present year, are clearly objects claiming immediate provision, to the extent of which I refer to the respective reports.

The Geological survey of the State has been prosecuted the past year with great energy, and most encouraging results. The able report of Professor Percival, our State Geologist, will doubtless elicit attention, both at home and abroad; and I trust will receive at your hands an early examination; as its importance will justify the publication of a larger edition than than is usual of this report, so immediately connected with the great mining interest of the state. The surveys thus far made have been chiefly confined to the lead districts, and that having now been nearly completed; it is intended, during the coming season, to direct the examination of the country north of the Wisconsin river to our copper mines, bordering on Lake Superior. There may, in my judgment, be prosecuted in connection with the Geological survey, a Zoological examination, for a comparatively trifling expense, resulting in such discoveries and collections, connected with the natural history of the state, as in future will be viewed as valuable and interesting, and to secure the full benefit of which, early action is necessary.

The military spirit exhibited by a portion of our fellow-citizens is both commendable and worthy of further encouragement than is now provided by law. In order to render the Militia of practical utility, the proper steps should be taken by the Legislature to encourage the formation of uniformed companies, which seems to be the best, if not the only practicable means, at present, of bringing into use the quota of arms which our state is entitled to draw annually from the United States Government. Imperfect as is the system for obtaining an enumeration of the militia of the state, yet the partial reports of the assessors of the several towns show an increase which entitles the state, for the present year, to receive equal to about 400 stand of arms, valued at nearly $5,000 00. It is recommended by numerous military officers that a law similar in its character to the one now existing in the state of New York, be enacted. An examination of that law has induced me to recommend it to your consideration, as worthy of imitation; and calculated to inspire a proper military spirit. The report of the Adjutant General, to which I invite your attention, contains explicit information, and many valuable suggestions, concerning the present condition of the militia.

The Attorney General, although not required by law to submit an annual report, has seen proper, in view of some matters of importance to the State connected with his department, and of which it is proper for the Legislature to be informed, to transmit, through me, a brief report, which I recommend you to consider.

Emigration to our State is annually on the increase, furnishing further evidence of the adaptation of our soil and climate to the habits and wants of the emigrant, and of the high estimate abroad placed upon our resources. The Commissioner of Emigration, in his annual report, calculates the number of emigrants from foreign countries who have found their homes in Wisconsin, to be much greater during the past than any former year. A large portion of this, I am induced to believe, resulted from the continuance of an agency in New York, and through the sub-agency, established at Quebec, under it. My former expressed views, in regard to the propriety of such agencies, I have had, as yet, no reason to change.

The Secretary of State and Governor were, by an act of the last Legislature, constituted commissioners, to procure to be published, in two volumes, so much of the documentary history as at that time had been prepared for publication.—Under this authority, a contract was made for 5,000 copies of each volume, which are now ready for delivery. The work has been prosecuted under the supervision of the author, Wm. R. Smith, Esq., whose report of its doings in the premises is herewith submitted. This valuable and interesting publication, being the property of the State, it is proper that a provision be made for an early distribution of a portion thereof. I would therefore suggest the propriety of donating one copy to each of our common school libraries; to the libraries of each institution of learning throughout the State, and also to each of the several State Libraries of the Union, and the various departments of the General Government—reserving a large number of copies for future demand, and the purpose of exchange for other valuable works, to be deposited in just proportions, in the libraries of the State and the State Historical Society.

The annual report required of the Executive Committee of the State Historical society, is herewith transmitted and gives evidence of strict fidelity on their part to the trust committed to them. Through the perseverance of its managers, this society has grown into an importance which reflects much credit upon them and meriting in my judgment, greater encouragement at your hands than has heretofore been bestowed by the Legislature. The increasing labors devolving upon the corresponding Secretary to perform, have reached that magnitude, that I regard it proper in view of the interest the State should manifest in the promotion of the objects of this society, that a reasonable salary should be provided, and paid by the State to that officer.

It affords me great pleasure to announce the fact, that the Fox and Wisconsin Improvement Company have pressed the work undertaken by them, with a degree of energy, which must prove most satisfactory to all interested in its completion. The company have been fortunate in the selection of their officers, and in obtaining abundant means to forward the enterprise, on a scale of far greater magnitude, than was at first contemplated; being intended to pass boats of a draft of at least four feet and a half of water.

The expenditures of the Company, as reported by its President Otto Tank Esq., since the transfer by the State, and up to the 20th of December last, are as follows, viz:

Grand Kaukalin	$42,031 04
Little Chute	60,183 37
Cedar Rapids	6,5?1 50
Grand Chute	47,652 30
Menasha	6,529 ??
Docks, Warehouses boats and barges	16,948 05
	$1?3,100 ?2

The sum estimated as necessary to complete the work, is the comparatively small one of $32 388 84. The Company have paid of the Improvement liabilities, the amount of $133,480 ?—thereby giving an earnest of their design to remove all the pending indebtedness, within the time required by the act of Incorporation. The difficulties which have been overcome, in the progress of this work, were exceedingly formidable, but the benefits to be derived from it, when finished, by a large portion of the State, are on a scale of far greater magnitude. As one of the few great connecting lines of communication, between the Lakes and the Mississippi, it assumes almost a national importance; and running as it does through the entire breadth of our State, it becomes of a value to those along the line, that no other means of transportation now used could replace. Rapid settlements, and a great increase of wealth, must necessarily follow its completion; and a large portion of our State now but thinly inhabited, or a wilderness, will receive an impulse which at no remote period, will render it a rival in all of the elements of material prosperity, to those sections already of importance, from their resources and population.

A glance at the map will show the favorable geographical position of the work, which, together with the internal improvements now in progress in Canada, confer an importance upon it which the originators of the project, in all probability, never foresaw. From the terminus of the Improvement at Green Bay, to Toronto on Lake Ontario, via. the railroad, terminating in Georgian Bay, and which is but 70 miles in length, it is no greater distance, than from that point in our State, to Detroit; and lessens the number of miles, usually travelled to reach the Eastern ports, by several hundreds. This is a matter of no small consequence, to the Northern and North Western portions of our State, and demonstrates the fact that this, when established, must be the line over which a large proportion of the vast carrying trade of those sections, and much of the country lying west of the Mississippi, will be most conveniently and cheaply done. The portion of country, contiguous to the Lake shore, must also share in the advantages thus conferred, by the opening of a nearer and cheaper avenue of communication with the commercial centers at the East.

The state at large is not without a deep interest in the completion of this important improvement within it. The number of great water powers which it will create along its extent, the manufacturing villages which it will cause to spring up in consequence, and the increase of taxable property and commercial activity, are considerations important to the welfare of our whole people. We can now plainly discover unaided by speculative statesmen, the benefits and disadvantages of the policy of granting public lands, in the states where they may lie, to be appropriated to the construction of works of this character; and our experience will go far towards convincing others, that the benefits have largely the preponderance. Undertaking, of a magnitude which would repel private enterprize unless thus aided, are encouraged and assisted to completion, and where, without such aid, if attempted, they would languish and die, the whole country, including the General Government, by the more rapid sales of its lands, are benefited to an extent not easily calculated.

Large additions to the State Library, through means provided by the last Legislature, have been made during the past year. A detailed report, concerning the same, will be laid before you at an early day. The expenditure of a moderate sum only will be required annually in the purchase of late publications, to render it both an ornament to our State, and sufficient for the objects which induced its establishment.

The U. S. standard weights and measures, to which this State was entitled, on her admittance into the Union, have recently been received and put in order for use, in a suitable fire proof building, erected for that purpose, upon the public grounds, in pursuance of plans furnished by the U. S. Government.

In order that those costly standards may be rendered as useful, as it was designed by Congress they should be, I deem it important that the law relating to procuring county standards, should be so amended as to require the State Treasurer, who, by law has the charge of the Government standards, to procure the manufacture from suitable material, for the use of each county, of complete and uniform standards, to be by him sealed and delivered to the proper county office; the cost of which, to be added to the amount of State tax that each county shall respectively be liable to pay, for the year the same shall be delivered. This I regard as the best means of insuring the proper uniformity in county standards, which it is so necessary to secure.

In my former message to the Legislature, I urged the propriety of making provision for the sale of the swamp and overflowed lands granted to this state by act of Congress, approved Sept. 28, 1850. The Legislature at that session failed in the attempt to provide for such sale, I now renew the subject, and recommend definite action.

There are numerous considerations which should weigh, in urging an early disposition and reclamation of these lands. The disposal of them would tend greatly to improve the health of localities contiguous to them—would hasten the settlement of the country, and make productive taxable property of much of that which in many instances is at present useless, and no law for their protection, or against taking the timber from them, it is believed, could be rendered sufficiently efficacious to prevent their being thus despoiled of what, in many instances, constitutes their chief value. Besides, even admitting the possibility of enforcing such a law, it could not be done without great perplexity and expense to the state.

Since the adjournment of the last Legislature, I have endeavored to adopt measures for the purpose, not only of ascertaining the facts, relative to the quantity and value of these lands, but also to secure the fee simple title thereto to the State.

Perfected and approved lists of such of said lands as remain unsold, within the surveyed portion of the State, and formerly subject to sale at the several U. S. Land Offices, have been procured from the Commissioner of the General Land Office, and are as follows, viz:

In the Milwaukee Land District.		53,536 23-100 acres.
do Mineral Point	do	13,515 40-100 do
do La Crosse	do	217,293 74-100 do
do Yellow River	do	119,616 45-100 do
do Menasha	do	717,523 52-100 do
do Stevens Point	do	521,670 52-100 do

Making a total of one million six hundred and fifty-one thousand sixty-two 10-100 acres.

Official statements from the General Land Office, of the sales made by the government of such granted lands, since the passage of the act appropriating the same, and for which the State is clearly entitled to receive either money or other lands, is promised and confidently believed will be forthcoming: which, it is thought, will increase the total quantity within the surveyed portions of the State to nearly two millions of acres—so that, upon a moderate estimate for that part of the overflowed lands in the surveyed districts (not included in either of the lists referred to), and the swamp and overflowed lands yet to be surveyed, in the northern portions of the State, it is reasonable to suppose that the total quantity which will ultimately enure to the State from this grant will equal three millions of acres. For the lands embraced in the perfected lists referred to, such assurances have been received from the Commissioner as to render it morally certain that patents for the same will be executed to the State at an early day.

Many of these lands are valuable, and should there be a judicious provision made for their sale, a large sum of money may be speedily realized by the state, after complying with the terms of the grant.

Admitting the propriety of thus disposing of these lands, I can see no constitutional objection to appropriating the surplus proceeds, after their application to the extent required by the act granting them, to such purposes as the Legislature may deem proper and, as a large sum has yet to be expended, in the erection of public buildings—such as the completion of the Penitentiary, the construction of the buildings for the various charitable institutions, and at no distant day of a new Capitol edifice, or the enlargement of the present—which, even now, owing to the insufficiency of room for offices, seems to be demanded.

From the examination I have given this subject, I am clear in the opinion that, from the sales of these lands, we may reimburse the treasury for all past outlays, on account of public buildings of every character, and further erect all such buildings as the state will require for many years to come. The constitutional limit for state indebtedness being small, and that limit having been reached during the years 1852 and 1853, I am strongly impressed with the belief that the sale of these lands is presented the only means at present within our command, by which to provide for the objects named without resorting to direct taxation, the burthens of which, for the ordinary expenses of our state, while yet in its infancy, will be found fully equal to the ability to meet.

I therefore recommend that in the event of provision being made for the sale of the lands, that the proceeds accruing to the state be set apart for the aforesaid objects.

Section three, article four, of the constitution requires the Legislature to provide by law for an enumeration of the inhabitants of the state in the year 1855. You will undoubtedly comply with this provision of that instrument at the present session. In addition to the enumeration required, I recommend that provision be made for collecting, at the same time, as full and complete information concerning the manufactures, products, and property of the state as may appear practicable. The information thus derived will unquestionably be found interesting, valuable, and creditable to our state.

It affords matter for congratulation, that the different Railroad enterprises of our State, have, to a certain extent, recovered from the temporary depression, brought about by well known causes. It is now a conceded fact, that these important agents in the rapid settlement of our country, and the development of its resources, afford in this State, secure means for the profitable investment of capital; and such is now our condition, that it is no longer indispensible for us to rely entirely upon means furnished from older and more wealthy communities, for their construction. It has, until a comparatively recent date, been absolutely necessary to induce the aid of foreign capital, in order to take the first steps in these enterprises, and no better evidence could be given of the rapid and healthy growth of the State, than that of our greatly increased ability to forward such means of communication; and the certainty of their yielding a profitable return, for the investments which may be made in them. Aside from the generous reward obtained by every branch of industry and enterprise, and from the increase produced by superabundant harvests, greatly beyond the demand for home consumption though added to by the wants of an unparalleled emigration has, of itself, been of a character calculated to argument materially, the available capital of the State.

Those laws of trade, which gradually and steadily regulate the supply in accordance with the demand, have insensibly, but with certainty, furnish our citizens with a great proportion of such means, as their necessities required, and their situation enabled them to secure and render profitable. Those legitimate works of internal improvement, the construction of which the onward march of our State made necessary, have felt the effects of the general impulse. Such as are already in progress, are being urged forward with all means of the companies having them in charge; and it is now confidently believed, that their completion, within a reasonable time, is placed beyond the possibility of a doubt. It should be care of the Legislature to foster, by liberal enactments, these important interests, and protect them by all such laws as are calculated to secure their rapid construction, and the permanency of all those investments, which may be devoted to their advancement or continuance. As one of the means necessary to effect this end I would strongly recommend the passage of such laws as would tend to prevent the commission of any fraud, by the over issue of stock or otherwise by the officers of incorporated companies, which would affect the interests of those entrusting them with the management of their affairs, or that of the community at large.

The occurrences which during the past few months have been brought to light, in several of the States, demonstrate the existing necessity of such enactments; and until there has been some action of this kind taken, the construction of our roads must necessarily be retarded by considerations which the Legislature can do much toward removing, by the imposition of severe penalties for offences of the character referred to, and such other checks as they, in their wisdom, may see fit to establish. Such a course will have a tendency to increase greatly the value of our securities abroad, by giving capitalists confidence in their permanent value. This subject I consider to be one of the highest importance, and I trust your earnest attention may be directed to the establishment of some law which will have the effect desired. The opinions expressed by me in my former message, relative to the importance of the speedy completion of our railroads, and the means which seemed to me proper to be used for their construction, I still adhere to, and would reiterate, did not a simple reference to that document obviate the necessity of so doing. In this connection, I deem it proper to recommend that the Legislature pass such a law as will enable Rail and Plank Road Companies to secure the right of way over all lands owned by the State, or held in trust for any fund.

I took occasion to urge upon the Legislature the propriety of memorializing Congress upon the subject of the Improvement of our Rivers and Harbors through the assistance of the General Government. Since that time Congress has acted upon the matter and passed an act making more liberal appropriations than had previously been set apart for these objects. From this bill, the President saw fit to withhold his sanction, and it is to be regretted that he deemed it his duty to take such a course, in view of the deep concernment we have in the making of adequate appropriations by Congress, for these objects.—Such have been demanded by the West for many years as a right to which they were entitled, as fully as that portion of our common country situated upon or near the sea board; and no satisfactory reason has yet been adduced why we should not have the full benefit of a system which has proved so highly advantageous to others.—Thus far, we can with propriety say that all the benefits reaped through the assistance of the General Government, have scarcely been worth the labor it has cost to obtain them. Considering, as I do, that the right so long claimed by us is one to which we are entitled by the clearest principles of justice and national expediency, I feel it to be proper to reiterate all of the opinions I have formerly expressed upon the subject, and to urge upon the Legislature the memorializing of Congress, to either make these improvements by appropriations from the Federal Treasury, or remove the obstacles in the way of our making them ourselves.

The subject of the revision of our laws is one of consequence sufficient, in my judgment, to authorize the Legislature, at the present session, to take those preliminary steps necessary to the attainment of this object. So great is the mass of our laws now, and so crude, conflicting and uncertain in their character, that it is very difficult for those even whose profession gives them the best opportunities of knowing what the existing laws are, to distinguish the binding enactment from the repealed or altered law, and this evil, in connection with the manner of publishing our Statutes, leaves the people of our State nearly as much in the dark as to the action of their Legislatures as if they resided in some other. The certainty of a law is one of the chief benefits to be derived from it, and it is not clear but that it would be better for community to suffer the existence of bad laws than to live under a system which is subjected to continual alterations. Our excessive legislation has a tendency to produce an entirely different result from the one intended, and is, perhaps, as much calculated to create evils as to prevent or redress them. I trust that your attention will be devoted to this matter, and will result in the establishment of a system of laws which can be understood, and a reform in the manner of their publication.

The proposition submitted by the Legislature to the people, at the last general election, to so amend the Constitution as to provide for biennial sessions of the legislature, was negatived by a decided vote. That this instrument is, in some particulars, imperfect, and might, by alteration, be better adapted to our condition, I am thoroughly convinced; but the policy of adopting any amendment of it, until a thorough revision is had by a convention, may well be questioned.—Propositions to amend either the constitution or laws, should be thoroughly considered, and the consequences attendant canvassed with great care and mature deliberation.

The law fixing the time for the annual meeting of the Legislature on the second Wednesday of January, should in my judgment, be so amended as to allow the various officers who are required to report annually through the Governor the Legislature, more time after the close of the fiscal year to prepare their reports. The fiscal year, as is wisely provided, closes on the 31st day of December. For those departments connected with the financial affairs of the State, an insufficient space of time is now allowed after the closing of their accounts, on the last day of the year, to prepare in due form the reports required of them by law. In order, therefore, to provide a remedy for the evil stated, and to afford the Governor a reasonable time for obtaining such information from the reports as is proper for him to communicate to the Legislature at the opening of the session, as well as for numerous other reasons which might, with propriety, be urged, I recommend that provision be made for the annual session hereafter to commence as late as the third or fourth Wednesday in January, instead of the second, as is now provided.

We, in common with our sister states, have in general great cause for rejoicing, at the results of the year which has just closed. Although the pestilence has left in its train, many sorrowing hearts and desolated homes, yet aside from this, the nation has reason to be thankful.—Throughout our borders, all the arts of peace have been crowned by those just rewards, the hope of which has called them into existence.—Plenty has richly repaid industry, and while the Old World is pouring out its blood and treasure upon fields of battle, we have been permitted to enjoy the fruits of our labors in peace. Civil and Religious liberty are ours by inheritance, and we have to the fullest extent, realized the blessings attendant upon them—supported as they have been, by no force beyond that of an enlightened public opinion. Like the return of the seasons, and the operation of all natural laws, our political system has continued its working, until we have come to regard this wonderful result of the wisdom of our forefathers, as a matter of course, and receive its benefits as we do the daily gifts of Providence.

The perpetuity of this system can only be maintained, however, by a strict obedience to the laws, for the faithful execution of which I shall be found ever ready, should the emergency arise.

So far as your labors may be confined to the legimate objects for which you are convened, and are calculated to promote the best interests of the whole people—if not in violation of that instrument which we alike are sworn to support—you may rely with confidence upon my ready co-operation.

$250 REWARD!

WHEREAS, It is believed that the several fires which occurred on the nights of Tuesday and Wednesday of the present week, which have been so destructive of property, were the work of incendiaries: Now, therefore, by virtue of the Ordinance in such cases made and provided, I, BYRON KILBOURN, Mayor of the City of Milwaukee, do hereby offer a reward of TWO HUNDRED AND FIFTY DOLLARS, to be paid by said city to any person or persons who shall give such information as will lead to the arrest and conviction of any person concerned in setting or causing either of said fires, whereby any of the several buildings were destroyed on either of said nights. If more than one person was acting in causing said fires, said reward is to be paid to the full amount for *each one* who may be convicted thereof, to the person or persons furnishing the information leading to such arrest and conviction.

And furthermore, I hereby in like manner offer a reward of TWO HUNDRED DOLLARS to any person or persons who will give such information as will lead to the arrest and conviction of any person who has set fire to any house or barn within this city during the past year of 1854, whereby such house or barn, or other buildings have been destroyed or seriously damaged.

In testimony whereof, I have hereunto set my hand officially, this 5th day of January, 1855.

A NEW

PIANO FORTE WARE-ROOM!

Where he will keep on hand a good assortment of the celebrated

AMERICAN ACTION PIANO FORTES,

Manufactured by GEORGE HEWS, of Boston, Mass.

The Patent American Action Piano Forte is distinguished for its great fullness, richness and sweetness of tone, evenness of scale, and delicacy of touch. The improvement in the Action renders it less liable to derangement, and so greatly facilitates execution. Numerous medals, diplomas and certificates have been received from various fairs and industrial exhibitions in different cities of the Union, from the World's Fair at London, and flattering testimonials from the profession, residents at Boston and elsewhere, among which are the following:

From the illustrious Pianist, L. M. GOTTSCHALK, to Mr HEWS, Agent at New York:

NEW YORK, Dec. 5, 1853.

MR N. J. CURTISS:—

Dear Sir: Having had the pleasure of performing upon Geo Hews' American Action Piano at the World's Fair in this city the present year, and other of his Pianos at your Wareroom, which afforded me much gratification, I cheerfully recommend them to the public. I am very glad of the improvement in the action. These instruments likewise are of excellent tone, owing, no doubt, to the perfection of the scale.

Very Respectfully, L. M. GOTTSCHALK.

From the distinguished Pianist, WILLIAM MASON:

MR. HEWS:—Having repeatedly played upon the Piano Fortes manufactured by you, with the American Action, I am free to acknowledge, that for certainty and elasticity of action, power, purity and equality of tone, I have never seen them surpassed in the square Piano Forte.

WILLIAM MASON.

Purchasers and lovers of music in general, are respectfully invited to call and examine these instruments. These Pianos will be sold at Boston prices, and warranted to give satisfaction in every respect.

Pianos to Let. Old Pianos taken in exchange, and liberal prices allowed.

Pianos Tuned and Repaired.

CITY LAND OFFICE.

A Great, Grand Bargain.

READ THE FOLLOWING:

80 Acres of Land, 4½ miles from City limits, on the Mukwonago Plank Road, 35 acres improvements, 45 acres the very best, and heavy timbered, a good log house with four rooms, and a large, well finished barn. Two wells and two springs on the place—a large Orchard, all grafted and seedling fruit, and all bearing. The land has very handsome building spots all along the road. Before the house is ornamental trees, together with a variety of shrubbery. The terms are easy—one-half down, balance in annual payments for ten years, with 7 per cent interest. The price for the above place you can ascertain by calling at my office. It is very cheap. Any one who should want to see the place, I will drive them out.

A RARE CHANCE

For a Young Man with a Small Capital.

THE ADVERTISER being about to engage in another business, is desirous of disposing of his Stock of Goods to some person wishing to engage in keeping a Country Store.

The location is a good one, and a long-established and favorably known stand, in a Village about thirty miles from Milwaukee, and within 2½ miles of one of the Railroads connecting with that City. There is but one other store in the village, keeping a general assortment. There are two Grist Mills, one Saw Mill, and one Turning Shop in the village. The Country around, from which trade is received, is some of the finest in the State, and settled principally by Eastern people.

The stock is in good condition, and is composed of Dry Goods, Hardware, Drugs and Medicines, Groceries, Crockery, &c.

The store building is new, and will be sold with the stock, or rented low. Possession given immediately.

For Terms, apply immediately by letter, prepaid, addressed to Box No. 527, Post Office, Milwaukee.

THE VERY LATEST!

SECOND ARRIVAL OF

Fall and Winter Goods

THE CITIZENS OF MILWAUKEE AND VICINITY never had presented such opportunities for purchasing

Foreign and Domestic Dry Goods,

as we are now able to offer.

A REDUCTION OF ONE HALF

IN THE PRICE OF FOREIGN GOODS

FROM THE IMPORTATION COST!

On account of the general prostration of trade in England and Europe, consequent upon the diversion of the precious metals from commerce to carry on the War in the East, large consignments of goods have been made to the United States, with orders to close them up for CASH, AT WHATEVER SACRIFICE.

ADLER & NEWBOUER,

have purchased largely of these goods, and are now offer nearly all kinds of imported Goods at about

I AM IN READINESS to furnish Stove Dealers with Rathbone & Co's ALBANY, COOK, BOX and PARLOR STOVES, at Manufacturer's Prices—Freight added.

I continue to sell that good,

BROTHER JONATHAN COOK STOVE,

I have sold the B. J. for the past three years. It has been thoroughly tested by thousands who will testify that it is the most complete Cook Stove that can be. I have four sizes of B. J. There is a summer attachment to the stove which will make half difference less of the amount of fuel used in the Summer season and does away with all unnecessary heat which other stoves make that have not the attachment. The oven is much larger than any other stove of the same size furniture. I warrant the stove to give complete satisfaction, if not, to be returned and money refunded. I will refer you to hundreds of the citizens of Milwaukee that are using the Stove.

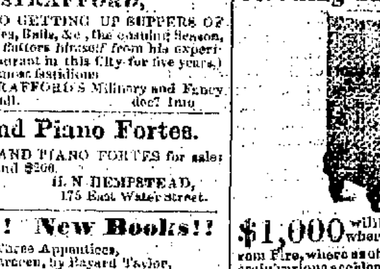
FireKing Safe, again Triumphant.



$1,000 will be paid, if reliable evidence is shown where they ever failed to protect valuable from Fire, where as other makers' Safes have proved worthless in various accidental and experimental tests, some of which occurred recently.

Read the following from Messrs. A. McClure & Co., wholesale and extensive dealers in Drugs, Medicines, &c.

ALBANY, July. 27, 1852.

This is to certify, that on the 23d day of July, 1852, our entire Stock, composed of Turpentine, Alcohol, Oil, Patent Medicines, &c., was consumed by fire; so rapid and severe was the fire that we were unable to close one safe until Mr. Pohlman subsequently entered at the peril of his life and closed the doors.

After forcing the safe open after all this exposure and fire, which made us so careful for the safety of its contents, its valuables were found uninjured.

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced.

A. McCLURE & CO.

ALBANY, Dec. 19, 1852.

This is to certify, that on the 7th day of May, 1851, I purchased of J. McB. Davidson, No. 7, single flange Safe, and that the same was subjected to a severe test on the 18th of December, 1851. After the fire was extinguished, its contents (books and papers,) were examined, and found to be perfectly preserved—not a leaf of my books being scorched.

P. J. CLAASSEN,
Importer of Wines, Cigars, &c., Broadway, Albany.

After an examination of P. J. Claassen's Safe and papers, we are convinced of the superiority of Davidson's Safes over all others.

This Safe received the highest premium—a silver medal at the Fair of the New York State Agricultural Society which was held at Albany, September 1850. Also a medal and diploma for the best burglar and fire proof safe at the same Fair held at Utica, for 1852.

Raymond, Ward Co. will receive orders for [illegible] Fire and Thief Proof Bank and Vault Doors. do18

This is to certify that on the 25th of September last we purchased of E. D. Rice, Esq., one of Mr. J. McB. Davidson's Fire Kings (No 4 Single Flange); that on the 14th of November past it was subjected to a very severe test in the burning of our warehouse, in which was stored a large quantity of whisky and other combustible materials. On opening the safe we found all our papers, consisting notes letters and receipts, perfect and entirely legible.

PATENT MEDICINES.

MEXICAN MUSTANG LINIMENT

THIS EXTRAORDINARY MEDICINE IS STILL working wonders throughout the World—eradicating everything in the form of disease that comes within the circle of its influence.

The People Themselves

have long since adopted it as the only external remedy they could rely upon, and the indisputable testimony of thousands is fast sweeping away

The Prejudices of the Faculty.

It is extensively used by the Ladies;
It is used by Mechanics and Laboring men;
It is used in families and factories;
It is used expressly by all Express Companies,
It is used by Farmers and Livery stable keepers,
It is used by everybody, and all speak in its praise,
Where it is used, pain cannot exist;
The benumbed limbs are made elastic;
The deep ulcers and frightful sores are healed;
The unstrung nerves are made to vibrate with joy!

Use the Mustang Liniment.

is the spontaneous advice of all.

It has cured more cases of

Rheumatism

than any other medicine ever used. Its efficacy in this terrible disease is acknowledged by all who have used it. It not only cures the complaint, but appears to give vigor and elasticity to the limbs, before unknown—thus performing a double office.

For contractions of the limbs, stiffness of the joints and muscles, hard lumps, swellings and inflammations, it is unrivalled in the power and efficacy of its operations.

For Bruises, Sprains, Cuts, Scalds and Burns, but a few applications are necessary in order to effect a total cure.

Cancer, or Scrofulous Sores, Tetter, Ringworms, Salt Rheum, Scurvy, Erysipelas, Boils, and Eruptions,

can generally be removed in a few days—and the worst cases can be cured in a few weeks at the farthest. Persons afflicted with these diseases, should be careful in getting the right article to cure them.

Use it upon Your Horses,

for spavin, splint, ring-bone, fistula, wind-galls, big-heads, bruises, strains, string halt, scratches, cracked heels, sweeney, saddle, collar, or harness galls, hard lumps or tumors, film or other diseases of the eye, poll-evil, &c.

The finest horses in the city of New York will be found in the stables of the various Express Companies—and they all use

The Mustang Liniment,

totally discarding any other preparations of the kind, and have all given their certificate in its favor.

This we presume will be a sufficient guarantee to induce every one who owns a horse, to give the Mustang a trial.

THERE is no Druggist or Country Store keeper
Who pretends to keep medicine at all,
But what keeps a constant supply of the

Mexican Mustang Liniment.

The small size retail for 25 cents per bottle,
The medium sized retail for 50 cents per bottle,
The large sized retail for one dollar per bottle,
The medium hold three times as much as the small.
The large holds nearly three times as much as the medium;
Therefore the largest bottles are the cheapest.

A CURE FOR ALL!!

HOLLOWAY'S OINTMENT.

Citizens of the Union:—

You have done me the honor with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short a period. THOMAS HOLLOWAY,

38, *Corner of Ann and Nassau Streets, New York.*

CURE OF SORE LEGS, AFTER 9 YEARS STANDING.

Mr W. J. Langley, of Huntsville, Yadkin, North Carolina, suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured; but a friend brought him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal, and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr. R. DURANT, of New Orleans, addressed Professor Holloway as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her; she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres st., New Orleans. I send this from "Hotel des Princes," Paris, although I had written it at New Orleans, before we finally left, not knowing your address at New York.

Nov. 9th, 1853. (Signed) R. DURANT.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Contracted and	Lumbago	Sore-throat
Bad Breasts	Stiff Joints	Piles	Skin-diseases
Burns	Fistulas	Rheumatism	Scurvy
Bunions	Gout	Salt Rheum	Sore heads
Chilblains	Glandular	Scalds	Ulcers
Chapped hands	swellings	Sore nipples	Wounds.

*** Sold at the establishment of Professor Holloway, 38, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in Pots, at 37½ cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

PATENT MEDICINES

MEDICATED INHALATION

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cure of Asthma and Consumption in the City of New York and vicinity for a few months past, ever known to man.—It is producing an impression on Diseases of the Lungs never before witnessed by the medical profession. [See certificates in hands of Agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid,—supplying the lungs constantly with a healing and agreeable vapor, passing into all the air cells and passages of the lungs that cannot possibly be reached by any other medicine. Here is a case:

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 29th, 1853.

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is,—TRY IT.

CONSUMPTION CURED.

NEW YORK, Dec 27th, 1853.

I came to New York in the ship Telegraph; my native place is St. John, New Brunswick; when I reached this city, my health was very poor; had a very bad cough, raised a great deal of matter, which was frequently mixed with blood; had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life.—Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. JOHN WOOD.

Sold by BOYD & PAUL, No. 40 Cortlandt street; C. H. RING, corner of John street and Broadway, N. Y. Price $3 a package.

N. B.—Any person inclosing $3 to BOYD & PAUL, or CURTIS & PERKINS, New York, will receive a package containing a bottle of Hygean Vapor, one of Cherry Syrup, and an Inhaler, in a neat box, by express, free to any part of the United States; or four packages for $10. feb23-1yd&w

MEDICATED INHALATION!

CONSUMPTION CAN BE CURED, AS TREATED BY

DR. E. N. TRIST,

WITH HIS CELEBRATED

HYGEN & OXYGENIC VAPOR!

DR. TRIST, Graduate of the Royal College of Surgeons in London, and the recipient of diplomas from the *Lung Institution of Edinburgh*, and *Hotel des Invalides of Paris*, having settled permanently in New York for the practice of his profession, begs leave to suggest to the citizens of the United States that several years of study and *successful experiments* in England and Scotland, as well as other parts of Europe, with *Consumption in all its forms*, enable him to warrant, not only relief, but a *complete cure* to all those suffering with this great national disease.

Dr. TRIST deems it unprofessional to advertise; but others having represented themselves as discoverers of the Inhalation Treatment, he would say to the afflicted that he alone is entitled to its first introduction, and would caution all against using the useless and dangerous compounds advertised by incompetent persons.

"*Take up thy bed and walk.*"

Dr. TRIST would say to those interested, that he has had manufactured, for the use of his patrons, his "*Patent Inhaling Tubes*," through which the vapor is conveyed to the parts affected, and which he earnestly commends for the cheering results which have attended their use; and the *fact* that they may be used by the most feeble invalid without any unpleasant symptoms.

To those residing out of the city, Dr. Trist will forward one of the Inhaling Tubes, together with a package of the Vapor, sufficient to last for three months, accompanied with ample directions for use, on receipt of a letter containing Ten Dollars, and describing symptoms.

A cure is warranted in all stages of *Consumption, Bronchitis, Asthma*, and all other *affections of the Throat, Lungs*, and Air Passages. In case of failure the money will be returned.

Address (post paid) DR. E. N. TRIST, 69 Grand-st., New York City. dec21-dmar1'55

HIGHLY IMPORTANT ANNOUNCEMENT.

To the Afflicted Everywhere,

DR. A. L. ADAMS' LIVER BALSAM COMES GREETING!

DR. A. L. ADAMS' NEW CURE FOR DISEASE is awakening the inquiry in the minds of all who read it. How is it that Americans have been so long and so lavishly immured in darkness and ignorance on the subject of disease.

DR. A. L. ADAMS' LIVER BALSAM.

The great Panacea of Disease is offered on the [illegible] of the States and Territories for the entire cure of Liver Complaints in all stages, Billious Fever, Ague and Fever, Chronic Lung Fever, Dropsical Affections, Coughs, Consumption, Asthma, Jaundice, Bowel Complaints, Diarrhoea, Dysentery, Rheumatism, Piles, Scrofula, Salt Rheum, Dyspepsia, General Debility, Nervousness, Costiveness, Indigestion, Female Complaints, &c.

Dr. A. L. Adams' Liver Balsam now sustains the highest reputation of any remedy before the public and has proved to the most skeptical, beyond a shadow of doubt that it is the only reliable medicine ever discovered (being purely vegetable) for the permanent cure of the above *disease*. The *most skeptical have become* its most sanguine votaries, and pronounce the Liver Balsam to be the only reliable harbinger of health to the afflicted everywhere.

Testimonials come up from every track it has made, swollen with expressions of gratitude for the relief received by its use. And, in submitting this, the Liver Balsam is recommended to those suffering under the iron grasp of the *monster disease*, and at once procure one bottle of Dr. A. L. Adams' Liver Balsam.

The reader's attention is called to the perusal of the Medical Circular, which can be obtained of every agent throughout the United States, giving a clear epitome of the causes and cure of disease; also, of certificates of those who have tested its unparalleled ascendancy over the diseases to which we are all subject.

G. E. Scott, General Agent, No. 67 Randolph-st., Chicago, Ill., to whom all orders must be addressed to receive prompt attention. Sold by [illegible]

All orders left with me this week, or at any other time during the winter, will receive prompt attention, as I do not intend to get it so far into winter quarters but that the Almighty Dollar will act as a magnet of sufficient force to draw it out.

My Stock of DRIED FRUIT AND NUTS of all kinds, and FISH of every description, is constantly large, of the very best quality.

City and Country Dealers are invited to call and examine my stock and prices, as I am confident I can offer them greater inducements to purchase than any other house in the West.

A RARE CHANCE

For a Young Man with a Small Capital.

THE ADVERTISER being about to engage in another business, is desirous of disposing of his Stock of Goods to some person wishing to engage in keeping a Country Store.

The location is a good one, and a long-established and favorably known stand, in a Village about thirty miles from Milwaukee, and within 2½ miles of one of the Railroads connecting with that City. There is but one other store in the village, keeping a general assortment. There are two Grist Mills, one Saw Mill, and one Turning Shop in the village. The Country around, from which trade is received, is some of the finest in the State, and settled principally by Eastern people.

The stock is in good condition, and is composed of Dry Goods, Hardware, Drugs and Medicines, Groceries, Crockery, &c.

The store building is new, and will be sold with the stock, or rented low. Possession given immediately.

For Terms, apply immediately by letter, prepaid, addressed to Box No. 327, Post Office, Milwaukee.

THE VERY LATEST!

SECOND ARRIVAL OF

Fall and Winter Goods

THE CITIZENS OF MILWAUKEE AND VICINITY never had presented such opportunities for purchasing

Foreign and Domestic Dry Goods,

as we are now able to offer.

A REDUCTION OF ONE HALF

IN THE PRICE OF FOREIGN GOODS

FROM THE IMPORTATION COST!

On account of the general prostration of trade in England and Europe, consequent upon the diversion of the precious metals from commerce to carry on the War in the East, large consignments of goods have been made to the United States, with orders to close them up for CASH, AT WHATEVER SACRIFICE.

ADLER & NEWBOUER,

have purchased largely of these goods, and are now offering nearly all kinds of imported Goods at about

Half the Manufacturing Cost!

Rich Plaid, Plain and Brochade SILKS, such as cost from 67½ cents to two dollars to import, are now selling from 3s up. Turk Satins at 6s cost 12s to import.
French Merinoes, All Wool, best goods imported, for 5s to 8s and equal to any sold last season at 8s to 15s.
Black Silk, an elegant assortment, from 5s to $2,50.
Wool, Worsted and Raw Silk Plaids, double width, choicest goods imported, 1s and to 5s, and equal to anything sold last season at from 3s to 12s.
Paramettas for 1s, 1s 6d and 2s, that are as good as any ever before sold in this country at 2s 6d, 3s and 4s. A dress from 8s to 12s, as good as could be obtained last year at 20s to $2.50.
Hion Embroideries at a very great reduction from former rates.
All Wool Delaines at 2s worth 4s and upwards.
Lace Curtains, richest goods ever imported, we are now selling at the price of common material.

One Shilling Calicoes at 6d.

Cloths, Cassimeres, Satinets, Kentucky Jeans at a great reduction in price.

Blanket Shawls, Brocha Shawls & Scarfs,

Our stock of Brocha Shawls cannot be equalled this side of New York. We sell good all wool Brocha Shawls at $5 and defy competition. Also best quality, as high as $65 to $75. And the richest assortment of

Satin, Cloth and Silk Velvet Cloaks,

at astonishing low prices. Making altogether the largest and most desirable stock of

DRY GOODS

ever exhibited in this market, from which Families, Merchants and Pedlars can supply their wants for one half the money required to purchase the same last year. Don't forget the place, NEAR THE AMERICAN,

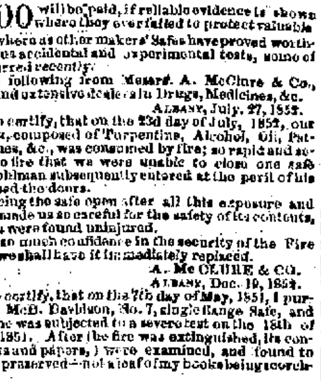
FireKing Safe, again Triumphant.



$1,000 will be paid, if reliable evidence is shown where they ever failed to protect valuables from Fire, where as other makers' Safes have proved worthless in various accidental and experimental tests, some of which occurred *recently*.

Read the following from Messrs. A. McClure & Co., wholesale and extensive dealers in Drugs, Medicines, &c.
ALBANY, July, 27, 1852.

This is to certify, that on the 23d day of July, 1852, our entire Stock, composed of Turpentine, Alcohol, Oil, Patent Medicines, &c., was consumed by fire; so rapid and severe was the fire that we were unable to close one safe until Mr. Pohlman subsequently entered at the peril of his life and closed the doors.

After forcing the safe open after all this exposure and fire, which made us as careful for the safety of its contents, its valuables were found uninjured.

We have so much confidence in the security of the Fire King, that we shall have it immediately replaced.
A. McCLURE & CO.
ALBANY, Dec. 19, 1852.

This is to certify, that on the 7th day of May, 1851, I purchased of J. McB. Davidson, No. 7, single Flange Safe, and that the same was subjected to a severe test on the 18th of December, 1851. After the fire was extinguished, its contents (books and papers,) were examined, and found to be perfectly preserved—not a leaf of my books being scorched.
P. J. CLAASSEN,
Importer of Wines, Cigars, &c., Broadway, Albany.
After an examination of P. J. Claassen's Safe and papers, we are convinced of the superiority of Davidson's Safes over all others.

Raymond, Ward Co. will receive orders for Davidson's Fire and Thief Proof Bank and Vault Doors. de18
This is to certify that on the 25th of September last we purchased of H. D. Rice, Esq., one of Mr. J. McB. Davidson's Fire King's (No 4 Single Flange); that on the 14th of November past it was subjected to a very severe test in the burning of our warehouse, in which was stored a large quantity of whisky and other combustible materials. On opening the safe we found all our papers, consisting notes letters and receipts, perfect and entirely legible.

PATENT MEDICINES.

MEXICAN MUSTANG LINIMENT

THIS EXTRAORDINARY MEDICINE IS STILL working wonders throughout the World—eradicating everything in the form of disease that comes within the circle of its influence.

The People Themselves

have long since adopted it as the only external remedy they could rely upon, and the indisputable testimony of thousands is fast sweeping away

The Prejudices of the Faculty.

It is extensively used by the Ladies,
It is used by Mechanics and Laboring men,
It is used in families and factories,
It is used expressly by all Express Companies,
It is used by Farmers and Livery stable keepers,
It is used by everybody, and all speak in its praise,
Where it is used, pain cannot exist;
The benumbed limbs are made elastic;
The deep ulcers and frightful sores are healed,
The unstrung nerves are made to vibrate with joy.

Use the Mustang Liniment.

Is the spontaneous advice of all.
It has cured more cases of

Rheumatism

than any other medicine ever used. Its efficacy in this terrible disease is acknowledged by all who have used it. It not only cures the complaint, but appears to give vigor and elasticity to the limbs, before unknown—thus performing a double office.

For contractions of the limbs, stiffness of the joints and muscles, hard lumps, swellings and inflammations, it is unrivaled in the power and efficacy of its operations.

For Bruises, Sprains, Cuts, Scalds and Burns, but a few applications are necessary in order to effect a total cure.

Cancer, or Scrofulous Sores, Tetter, Ringworms, Salt Rheum, Scurvy, Erysipelas, Boils, and Eruptions,

can generally be removed in a few days—and the worst cases can be cured in a few weeks at the farthest. Persons afflicted with these diseases, should be careful in getting the right article to cure them.

Use it upon Your Horses,

for spavin, splint, ring-bone, fistula, wind-galls, big-heads, bruises, strains, sweeny, scratches, cracked heels, sweeney, saddle, collar, or harness galls, hard lumps or tumors, film or other disease of the eye, poll-evil, &c.

The finest horses in the city of New York will be found in the stables of the various Express Companies—and they all use

The Mustang Liniment,

totally discarding any other preparations of the kind, and have all given their certificate in its favor.

This we presume will be a sufficient guarantee to induce every one who owns a horse, to give the Mustang a trial.

THERE is no Druggist or Country Store keeper
Who pretends to keep medicine at all,
But what keeps a constant supply of the

Mexican Mustang Liniment.

The small size retail for 25 cents per bottle,
The medium sized retail for 50 cents per bottle,
The large sized retail for one dollar per bottle,
The medium hold three times as much as the small.
The large holds nearly three times as much as the medium;
Therefore the largest bottles are the cheapest

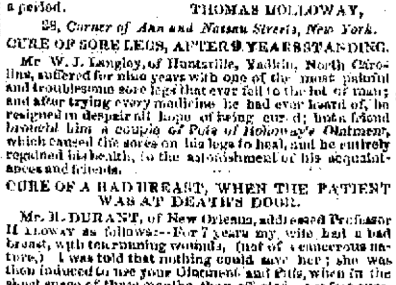
A CURE FOR ALL!!



HOLLOWAY'S OINTMENT.

Citizens of the Union:—

You have done me the honor with one voice, from one end of the Union to the other to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short a period. THOMAS HOLLOWAY,
28, Corner of Ann and Nassau Streets, New York.

CURE OF SORE LEGS, AFTER 9 YEARS STANDING.

Mr W. J. Langley, of Huntsville, Yadkin, North Carolina, suffered for nine years with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine he had ever heard of, he resigned in despair all hope of being cured; but a friend *lavished* him a couple of Pots of Holloway's Ointment, which caused the sores on his legs to heal, and he entirely regained his health, to the astonishment of his acquaintances and friends.

CURE OF A BAD BREAST, WHEN THE PATIENT WAS AT DEATH'S DOOR.

Mr. H. DURANT, of New Orleans, addressed Professor HOLLOWAY as follows:—For 7 years my wife had a bad breast, with ten running wounds, (not of a cancerous nature,) I was told that nothing could save her; she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicines from Messrs. Wright & Co., of Chartres-st., New Orleans. I send this from "Hotel des Princes," Paris, although I had written it at New Orleans, before we finally left, not knowing your address at New York.
Nov. 8th, 1853. (Signed) R. DURANT.

The Pills should be used conjointly with the Ointment in most of the following cases:—

Bad Legs	Contracted and	Lumbago	Sore-throat
Bad Breasts	Stiff Joints	Piles	Skin-diseases
Burns	Fistulas	Rheumatism	Scurvy
Bunions	Gout	Salt Rheum	Sore-heads
Chilblains	Glandular	Scalds	Ulcers
Chapped hands	swellings	Sore nipples	Wounds.

*** Sold at the establishment of Professor HOLLOWAY, 80, Corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in Pots, at 37½ cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

PATENT MEDICINES

MEDICATED INHALATION

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cure of Asthma and Consumption in the City of New York and vicinity for a few months past, ever known to man. It is producing an impression on Diseases of the Lungs never before witnessed by the medical profession. [See certificates in hands of Agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid,—supplying the lungs constantly with a healing and agreeable vapor, passing into all the air cells and passages of the lungs that cannot possibly be reached by any other medicine. Here is a case:

ASTHMA CURED.

BROOKLYN, N. Y., Dec. 20th, 1853

For about eight years I have been severely afflicted with the Asthma; for the last two years I have suffered beyond all my powers of description; months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—TRY IT.

CONSUMPTION CURED.

NEW YORK, Dec 27th, 1853.

I came to New York in the ship Telegraph; my native place is St. John, New Brunswick; when I reached this city, my health was very poor; had a very bad cough, raised a great deal of matter, which was frequently mixed with blood; had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life.—Soon after wearing the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. JOHN WOOD.

Sold by BOYD & PAUL, No. 40 Cortlandt street; C. H. RING, corner of John street and Broadway, N. Y. Price $3 a package.

N. B.—Any person inclosing $3 to BOYD & PAUL, or CURTIS & PERKINS, New York, will receive a package containing a bottle of Hygean Vapor, one of Cherry Syrup, and an Inhaler, in a neat box, by express, free to any part of the United States; or four packages for $10. feb3-1yd&w

MEDICATED INHALATION!

CONSUMPTION CAN BE CURED, AS TREATED BY

DR. E. N. TRIST,

WITH HIS CELEBRATED

HYGEN & OXYGENIC VAPOR!

DR. TRIST, Graduate of the Royal College of Surgeons in London, and the recipient of diplomas from the *Lung Institution of Edinburgh*, and *Hotel des Invalides of Paris*, having settled permanently in New York for the practice of his profession, begs leave to suggest to the citizens of the United States that several years of study and *successful experiments* in England and Scotland, as well as other parts of Europe, with *Consumption in all its forms*, enable him to warrant not only relief, but a *complete cure* to all those suffering with this great national disease.

Dr. TRIST deems it unprofessional to advertise; but others having represented themselves as the originators of the Inhalation Treatment, he would say to the afflicted that he alone is entitled to its first introduction, and would caution all against using the useless and dangerous compounds advertised by incompetent persons.

"*Take up thy bed and walk.*"

Dr. TRIST would say to those interested, that he has had manufactured, for the use of his patrons, his "*Patent Inhaling Tubes,*" through which the vapor is conveyed to the parts affected, and which he earnestly commends for the cheering results which have attended their use; and the *fact* that they may be used by the most feeble invalid without any unpleasant symptoms.

To those residing out of the city, Dr. Trist will forward one of the Inhaling Tubes, together with a package of the Vapor, sufficient to last for three months, accompanied with ample directions for use, on receipt of a letter containing Ten Dollars, and describing symptoms.

A cure is warranted in all stages of Consumption, Bronchitis, Asthma, and all other affections of the Throat, Lungs, and Air Passages. In case of failure, the money will be returned.

Address (post paid) DR. E. N. TRIST, 68 Grand-st., New York City. dec21-3m w1'55

HIGHLY IMPORTANT ANNOUNCEMENT.

To the Afflicted Everywhere,

DR. A. L. ADAMS' LIVER BALSAM

COMES GREETING!

DR. A. L. ADAMS' NEW CURE FOR DISEASE is awakening the inquiry in the minds of all who read it. *How is it that Americans have been so long and so lavishly immured in darkness and ignorance on the subject of disease.*

DR. A. L. ADAMS' LIVER BALSAM. The great Panacea of Disease is offered to the notice of the States and Territories for the entire cure of Liver Complaints in all stages, Bilious Fever, Ague and Fever, Chronic Lung Fever, Dropsical Affections, Coughs, Consumption, Asthma, Jaundice, Bowel Complaints, Diarrhoea, Dysentery, Rheumatism, Piles, Scrofula, Salt Rheum Dyspepsia, General Debility, Nervousness, Costiveness, Indigestion, Female Complaints, &c.

Dr. A. L. Adams' Liver Balsam now sustains the highest reputation of any remedy before the public and has proved to the most skeptical, beyond a shadow of doubt that it is the only reliable medicine ever discovered! (being purely vegetable) for the permanent cure of the above *disease*. The most skeptical have become its most sanguine votaries, and pronounce the Liver Balsam to be the only reliable harbinger of health to the afflicted everywhere.

Testimonials come up from every track it has made, swollen with expressions of gratitude for the relief received by its use. And, in submitting this, the Liver Balsam is recommended to those suffering under the iron grasp of the monster disease, and at once procure one bottle of Dr. A. L. Adams' Liver Balsam.

The reader's attention is called to the perusal of the Medical Circular, which can be obtained of every agent throughout the United States, giving a clear epitome of the causes and cure of disease; also, of certificates of those who have tested its unparalleled ascendency over the disease to which we are all subject.

DOCTOR YOURSELF.

THE POCKET ÆSCULAPIUS,

OR, EVERY ONE HIS OWN PHYSICIAN.

THE FIFTIETH Edition with One Hundred Engravings, showing Diseases and Malformations of the Human System in every shape and form.—To which is added a Treatise on the Diseases of Females, being of the highest importance to married people or those contemplating marriage. By
WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the ÆSCULAPIUS to his child. It may save him from an early grave. Let no young man, or woman enter into the secret obligations of married life without reading the POCKET ÆSCULAPIUS. Let no one suffering from a hackneyed Cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations, and given up by their Physician, be another moment without consulting the ÆSCULAPIUS. Have the married, or those about to be married any impediment, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

Any person sending TWENTY-FIVE CENTS inclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for One Dollar.

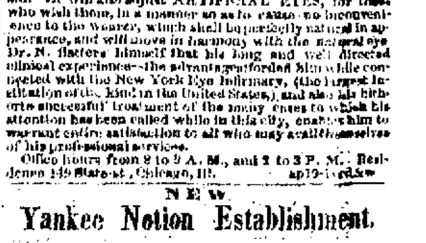
A. B. NEWKIRK, M. D.,



Oculist and Ophthalmic Surgeon,

No. 17 Metropolitan Buildings, La Salle Street,

TENDERS his professional services to all those who are afflicted with any of the various diseases to which the Eye is subject. He will operate in the most approved manner for CATARACT, STRABISMUS, (Cross Eye) or any other condition of that organ requiring surgical aid. He will also adjust ARTIFICIAL EYES, for those who wish them, in a manner so as to cause no inconvenience to the wearer, which shall be perfectly natural in appearance, and will move in harmony with the natural eye. Dr. N. flatters himself that his long and well directed clinical experience—the advantage afforded him while connected with the New York Eye Infirmary, (the largest Institution of the kind in the United States,) and also his hitherto successful treatment of the many cases to which his attention has been called while in this city, enables him to warrant entire satisfaction to all who may avail themselves of his professional services.
